Aphrodites Island The European Discovery Of Tahiti:

Aphrodite's Island Anne Salmond, 2010 An in depth look at the European discovery of the South Pacific island of Tahiti and all the ideas it came to represent in European minds regarding sexuality the exotic and the nobility of the so called savages also examines Tahitian attitudes toward the visitors and the impact of their interactions with each other **Facing Empire** Kate Fullagar, Michael A McDonnell, 2018-11-01 A major reframing of world history this anthology interrogates eighteenth and nineteenth century European imperialism from the perspective of indigenous peoples Rather than casting indigenous peoples as bystanders in the Age of Revolution Facing Empire examines the active roles they played in helping to shape the course of modern imperialism Focusing on indigenous peoples experiences of the British Empire the volume s comparative approach highlights the commonalities of indigenous struggles and strategies across the globe Facing Empire charts a fresh way forward for historians of empire indigenous studies and the Age of Revolution Covering the Indian and Pacific Oceans Australia and West and South Africa as well as North America this book looks at the often misrepresented and underrepresented complexity of the indigenous experience on a global scale Contributors Tony Ballantyne Justin Brooks Colin G Calloway Kate Fullagar Bill Gammage Robert Kenny Shino Konishi Elspeth Martini Michael A McDonnell Jennifer Newell Joshua L Reid Daniel K Richter Rebecca Shumway Sujit Sivasundaram Nicole Ulrich **Reframing Indigenous Biography** Shino Konishi, Malcolm Allbrook, Tom Griffiths, 2024-11-11 This book explores the history practice and possibilities of writing about the lives of First Nations peoples in Australia as well as Aotearoa New Zealand North America and the Pacific This interdisciplinary collection recognises the limitations of Western biographical conventions for writing Indigenous long and short form biographies Through a series of diverse life stories of both historical and contemporary First Nations figures this book investigates innovative ways to ameliorate the challenges we face in recovering the stories of Indigenous people and reimagining their lives in productive new ways Many of the chapters in this collection are deeply reflective aiming not just to relate the life story of an individual but also to reflect on the archival intellectual and emotional journeys that biographers undertake in researching Indigenous biography This volume will be of value to scholars and students interested in Indigenous Studies biography history literature creative writing archaeology and colonial and postcolonial studies **Oceania and the Victorian Imagination** Peter H. Hoffenberg, 2016-05-23 Oceania or the South Pacific loomed large in the Victorian popular imagination It was a world that interested the Victorians for many reasons all of which suggested to them that everything was possible there This collection of essays focuses on Oceania s impact on Victorian culture most notably travel writing photography international exhibitions literature and the world of children Each of these had significant impact The literature discussed affected mainly the middle and upper classes while exhibitions and photography reached down into the working classes as did missionary presentations The experience of children was central to the Pacific s effects as youthful encounters at exhibitions chapel home or school formed lifelong impressions and

experience It would be difficult to fully understand the Victorians as they understood themselves without considering their engagement with Oceania While the contributions of India and Africa to the nineteenth century imagination have been well documented examinations of the contributions of Oceania have remained on the periphery of Victorian studies Oceania and the Victorian Imagination contributes significantly to our discussion of the non peripheral place of Oceania in Victorian culture

The Price of Empire Miles M. Evers,Eric Grynviski,2024-04-04 The United States was an upside down British Empire It had an agrarian economy few large investors and no territorial holdings outside of North America However decades before the Spanish American War the United States quietly began to establish an empire across thousands of miles of Pacific Ocean While conventional wisdom suggests that large interests the military and major business interests drove American imperialism The Price of Empire argues that early American imperialism was driven by small entrepreneurs When commodity prices boomed these small entrepreneurs took risks racing ahead of the American state Yet when profits were threatened they clamoured for the US government to follow them into the Pacific Through novel intriguing stories of American small businessmen this book shows how American entrepreneurs manipulated the United States into pursuing imperial projects in the Pacific It explores their travels abroad and highlights the consequences of contemporary struggles for justice in the Pacific

Corporeal Archipelagos Julia Frengs,2017-12-27 *Corporeal Archipelagos* Writing the Body in Francophone Oceanian Women s Literature offers an examination of contemporary literature from the French speaking Oceanian region through a focus on four of its most prolific women writers and the ways in which these writers negotiate identity construction through one of the most powerful identity markers in the region the body The question of the body how one is to make meaning through corporeality how one represents the body and what role the body plays in identity construction is not only a question with which feminists and postcolonial theorists have been grappling for nearly a half century The body is of integral significance to autochthonous Oceanian societies whose views of corporeality are not built upon a dualistic mind body binary that has influenced Western thought since the era of Descartes but rather on a cosmological epistemological axis that comprehends the body as intertwined with symbolic social and ideological understandings of identity Beginning with an analysis of the ways in which the Oceanian body has been portrayed and consumed as an exotic object of fascination throughout three centuries of European literature the book examines the myriad methods by which women writers break away from exotic myths and reappropriate the body as a powerful tool that enables them to confront the question of self definition in French speaking Oceania The authors examined in this book employ culturally racially and sexually specific bodies in the creation of an original confrontational literature that transgresses historically and culturally imposed boundaries audaciously inserting their voices the voices of Oceania into the postcolonial francophone literary scene
