The Apostle Paul and His Letters Edwin D. Freed, 2014-12-05 *The Apostle Paul and His Letters* presents a detailed examination of the apostle's seminal writings in the Book of Acts. Paul was writing primarily to converts who had joined church communities only recently, mostly forsaking either Judaism or paganism. Paul's emphases on faithfulness toward God, the faithfulness of Jesus, and his moral teachings are always primary themes. The book discusses a range of topics: the circumstances that led Paul to write each letter; Paul's emphasis on the morality of the believers to whom he was writing; the influence of Old Testament, Qumran, and pagan writings on Paul's own; the intellectual and cultural context of the time; and how careful attention to Paul's language can shed light on his meaning. This book is written for a wide range of interested readers, including students, pastors, church workers, and others interested in learning about Paul as a person and his work.

Hebrews, the General Letters, and

Revelation Charles B. Puskas, 2016-10-28 Most New Testament NT introductions because of page limitations and other reasons tend to minimize their treatment of the last nine books of the Christian Bible from Hebrews to Revelation. The focus in these introductions is often on the four Gospels and the Letters of Paul. As important as these books are, one should not neglect with only a brief survey the treatment of Hebrews, the General Letters, and the book of Revelation. The title given later to the collection Catholic Epistles or General Letters is a reminder of its general appeal to the whole church despite its slow canonical recognition and authorship issues. Nevertheless, these writings from Hebrews to Revelation continue to capture our attention and ignite our imagination. My purpose for this book is to supplement my NT introduction and others like it with a focus on specific questions about each book from Hebrews to Revelation: When and why was each book written? By whom and to whom was each book written? What are some special features of each book? How soon or late was each book included in the NT collection? Answers to many of these questions are tentative. The assured results of scholarship are in continual need of reevaluation. Since the 1980s, a host of diverse studies have emerged, and I have endeavored to include them when they are relevant to the discussion.

The Living Church, 1942

Religious Thinking from Childhood to Adolescence Ronald Goldman, 2022-02-14 First published in 1964, *Religious Thinking from Childhood to Adolescence* describes the capacities of pupils of varying ages, abilities, and backgrounds to understand religious truths. How concepts of the Bible, God, Jesus, of Prayer, and of the Church developed from the early years is seen within the psychological context of maturing thought and the implications for religious education, which are provocative and far-reaching, are explored. Teachers, clergy, and parents will find this book a challenge to reconsider not only how the growing child views what he is taught but also the reasons why he frequently misunderstands religious teaching. By presenting a systematic account of religious thinking from 6 to 17 years, Dr. Goldman adds a new dimension to our insights into child development.
