Appeasement On Trial British Foreign Policy And Its Critics 1938 1939

Williamson Murray

Appeasement On Trial British Foreign Policy And Its Critics 1938 1939:

British Foreign Policy, 1919-1939 Paul W. Doerr, 1998-05-15 Provides students with a clear narrative overview of the period which will enable them to form critical opinions Introduces students to the historical controversies of the period and communicates the results of recent specialist studies to a student readership in an easily understood manner An accessible clearly written account accompanied by useful bibliography chronology tables and maps and written by an author teaching in the field

British Politics and Foreign Policy in the Age of Appeasement, 1935-39 R. Adams, 1993-02-02 In this book historian R J Q Adams examines the policy of appeasement as practiced by British Governments in the inter war years a programme widely praised in its day and frequently condemned as wrong headed and even wicked ever since In this thoroughly accessible work he reveals the motivations and goals of the men who practiced appeasement as well as of those who opposed it and makes clear the road to Munich and to war

The Postwar Legacy of Appeasement R. Gerald Hughes, 2014-01-16 Focusing on the Cold War and the post Cold War eras R Gerald Hughes explores the continuing influence of Appeasement on British foreign policy and re evaluates the relationship between British society and Appeasement both as historical memory and as a foreign policy process The Postwar Legacy of Appeasement explores the reaction of British policy makers to the legacies of the era of Appeasement the memory of Appeasement in public opinion and the media and the use of Appeasement as a motif in political debate regarding threats faced by Britain in the post war era Using many previously unpublished archival sources this book clearly demonstrates that many of the core British beliefs and cultural norms that had underpinned the Chamberlainite Appeasement of the 1930s persisted in the postwar period

The Change in the European Balance of Power, 1938-1939: The Path to Ruin by Williamson Murray Williamson Murray, 2025-07-22 A thoroughly documented study of the years of Hitler s triumph which the author sees as anything but inevitable He emphasizes Germany s economic difficulties lack of raw materials and foreign exchange and sees an objectively weak but strong willed Germany challenge a strong but weak willed West with the British always relying on a worst case analysis of their military strength and a best case analysis of Hitler s intentions An important study that in many ways returns to an earlier view that the West would have been in a better position to fight a war in 1938 than in 1939 that appeasement promoted what its proponents most feared German aggression leading to protracted war The author bolsters a familiar thesis with new evidence and great zeal Foreign Affairs Murray has mastered an impressive range of archival and published sources advances a robust revisionist thesis By a careful correlation of the economics of German rearmament with Hitler s foreign policy and strategy between 1933 and 1939 he makes a strong case that right up to the outbreak of war Germany was much less thoroughly prepared for a major war than most of her contemporary opponents imagined or than most historians have realized since Hitler began a wholesale effort at rearmament from the moment he became Chancellor Although this rearmament programme was immense when compared to other European states it was severely handicapped by Germany s heavy

dependence on imported raw materials insufficient foreign credit and shortage of skilled labour The occupation of the Sudetenland brought few economic advantages but the seizure of the remainder of Czechoslovakia in March 1939 yielded an enormous benefit in raw materials industrial resources and immediately available guns ammunition and tanks a scholarly and powerfully argued study in particular all future students of the subject will have to grapple with Professor Murray s analysis of Germany s economic problems and military deficiencies The English Historical Review Williamson Murray s book applies a reality test to the policies of the great powers in the late 1930s The test rests on a simple assumption as irrefutable as it is commonly ignored military power is the hard cold cash of international life Hitler as Murray puts it more often than not made correct strategic decisions Chamberlain and associates made the wrong choice on almost every strategic and diplomatic question that they faced Catastrophe in 1940 was the result a work that is rich in archival knowledge sophisticated argument the occasional subtle dig and an uncommon sense of the difficulties and ambiguities that face those who must decide Murray s cogent presentation of the evidence and his uncompromising uncomfoting conclusions are a devastating blow to the revisionist school on appeasement an essential book for anyone who studies the interwar period or is seriously interested in either the interrelationship of policy and strategy or the nature of relations between states The Journal of Modern History Murray offers a masterful survey of the essentials which are background to decision making in Germany England and France which produced both the war and the catastrophe for the West in the war s first year This monograph is well researched fully documented and well written Political leaders diplomats and military planners should have this book on their must read list an important work The Historian A n excellent piece of historical research a comprehensive well written and well organized narrative of the key issues affecting the foreign policymaking process it is to be recommended as a thorough introduction to the topic and an admirable attempt at historical synthesis The International History Review Hitler's Foreign Policy 1933-1939 Gerhard L. Weinberg,2010-03-01 Hitler s path to war consisted of two different stages that paralleled the internal development of Germany From 1933 to the end of 1936 he created a diplomatic revolution in Europe From a barely accepted equal Germany became the dominant power on the continent With the remilitarization of the Rhineland the stalemate in the Spanish Civil War the forming of the Axis and the signing of the Anti Comintern Pact the first phase was completed In the second phase the diplomatic initiative in the world belonged to Germany and its partners Germany s march toward war therefore became the central issue in world diplomacy **Neville Chamberlain, Appeasement, and the British Road to War** Frank McDonough,1998 Drawing on a wide range of material including primary sources Frank McDonough re examines the controversial policy of appeasement and argues that appeasement was part of a broad consensus in British society at the time *Anglo-American Strategic Relations and the Far East, 1933-1939* Greg Kennedy,2013-01-11 This volume charts how the national strategic needs of the United States of America and Great Britain created a parallel but not joint relationship towards the Far East as the crisis in that region evolved from 1933 39 In short it is a look at the relationship shared between

the two nations with respect to accommodating one another on certain strategic and diplomatic issues so that they could become more confident of one another in any potential showdowns with Japan A Low, Dishonest Decade Paul N. Hehn, 2005-09-26 Focusing on the rivalries among the Great Powers in the search for markets during the world depression of the 1930s the author surveys the five Major Powers and all the Eastern European countries from the Baltic to Turkey But he primarily canvases the economic situations in locations like Czechoslovakia Hungary Poland Romania and Yugoslavia

Modern England, 1901-1984 Alfred F. Havighurst, 2004-07-08 The most comprehensive bibliography of printed books articles and standard texts on twentieth century England **Modern England 1901-1970** Alfred Havighurst, 1976-05-13 This is a comprehensive bibliography of all printed books articles and standard texts on England Ireland Scotland the Commonwealth and the colonies up to 1970 This handbook will serve as a useful guide to scholars teachers at all levels advanced students and the general reader interested in examining the period in some depth
