

A Pragmatist's Progress?

RICHARD RORTY AND AMERICAN INTELLECTUAL HISTORY

JOHN PETTEGREW, EDITOR

A Pragmatists Progress Richard Rorty And American Intellectual History American Intellectual Culture

Deborah Whitehead

A Pragmatists Progress Richard Rorty And American Intellectual History American Intellectual Culture:

A Pragmatist's Progress? John Pettegrew, 2000 In this volume a host of distinguished scholars examine Richard Rorty's influence on twentieth century American pragmatism and its commitment to achieving social democracy Rorty's reclaiming of the pragmatist tradition and his contribution to the discipline of intellectual history are highlighted at the same time each essay finds Rorty's pragmatism most fully enunciated in Contingency Irony and Solidarity lacking in its privatist vision of the good life This criticism is drawn out through explicit comparisons between Rorty and his grandfather Walter Rauschenbusch William James John Dewey Randolph Bourne Richard J Bernstein and other twentieth century pragmatist thinkers This volume offers the most complete historical treatment of this controversial intellectual to date **Alexis de Tocqueville and American Intellectuals** Matthew J. Mancini, 2006 Comprehensive in its chronology the works it discusses and the commentators it critically examines Alexis de Tocqueville and American Intellectuals tells the surprising story of Tocqueville's reception in American thought and culture from the time of his 1831 visit to the United States to the turn of the twenty first century **Intellectuals and the American Presidency** Tevi Troy, 2002 This book examines the contact relationships between U S presidents and America's intellectuals since 1960 **American Thought and Culture in the 21st Century** Martin Halliwell, 2008-10-07 Will the twenty first century be the next American Century Will American power and ideas dominate the globe in the coming years Or is the prestige of the United States likely to crumble beneath the pressure of new international challenges This ground breaking book explores the changing patterns of American thought and culture at the dawn of the new millennium when the world's richest nation has never been more powerful or more controversial It brings together some of the most eminent North American and European thinkers to investigate the crucial issues and challenges facing the United States during the early years of our new century From the subterranean political shifts beneath the electoral landscape to the latest biomedical advances from the literary response to 9 11 to the rise of reality television this book explores the political social and cultural contours of contemporary American life but it also places the United States within a global narrative of commerce cultural exchange i William James, Pragmatism, and American Culture Deborah Whitehead, 2016-01-21 Continues and adds to a rich conversation among American philosophers concerning the origins of pragmatism and its possibilities for the future William Gavin University of Southern Maine William James Pragmatism and American Culture focuses on the work of William James and the relationship between the development of pragmatism and its historical cultural and political roots in nineteenth century America Deborah Whitehead reads pragmatism through the intersecting themes of narrative gender nation politics and religion As she considers how pragmatism helps to explain the United States to itself Whitehead articulates a contemporary pragmatism and shows how it has become a powerful and influential discourse in American intellectual and popular culture *Richard Nixon and the Rise of Affirmative Action* Kevin Yuill, 2006-06-27 Nixon's efforts in moving the focus of U S race relations from reform to indemnifying damages Yuill argues

at least equal his contributions to the origins of affirmative action through policy innovations Jacket *A Companion to Rorty* Alan Malachowski, 2020-04-13 A groundbreaking reference work on the revolutionary philosophy and intellectual legacy of Richard Rorty A provocative and often controversial thinker Richard Rorty and his ideas have been the subject of renewed interest to philosophers working in epistemology metaphysics analytic philosophy and the history of philosophy Having called for philosophers to abandon representationalist accounts of knowledge and language Rorty introduced radical and challenging concepts to modern philosophy generating divisive debate through the new form of American pragmatism which he advocated and the renunciation of traditional epistemology which he espoused However while Rorty has been one of the most widely discussed figures in modern philosophy few volumes have dealt directly with the expansive reach of his thought or its implications for the fields of philosophy in which he worked The Blackwell Companion to Rorty is a collection of essays by prominent scholars which provide close and long overdue examination of Rorty's groundbreaking work Divided into five parts this volume covers the major intellectual movements of Rorty's career from his early work on consciousness and transcendental arguments to the lasting impacts of his major writings to his approach to pragmatism and his controversial appropriations from other philosophers and finally to his later work in culture politics and ethics Offers a comprehensive balanced and insightful account of Rorty's approach to philosophy Provides an assessment of Rorty's more controversial thoughts and his standing as an anti philosopher's philosopher Contains new and original exploration of Rorty's thinking from leading scholars and philosophers Includes new perspectives on topics such as Rorty's influence in Central Europe Despite the relevance of Rorty's work for the wider community of philosophers and for those working in fields such as international relations legal and political theory sociology and feminist studies the secondary literature surrounding Rorty's work and legacy is limited A Companion to Rorty address this absence providing a comprehensive resource for philosophers and general readers Pragmatism John R. Shook, 2023-05-02 A concise reader friendly overview of pragmatism the most influential school of American philosophical thought Pragmatism America's homegrown philosophy has been a major intellectual movement for over a century Unlike its rivals it reaches well beyond the confines of philosophy into concerns and disciplines as diverse as religion politics science and culture In this concise engagingly written overview John R Shook describes pragmatism's origins concepts and continuing global relevance and appeal With attention to the movement's original thinkers Charles Sanders Peirce William James John Dewey and George Herbert Mead as well as its contemporary proponents he explains how pragmatism thinks about what is real what can be known and what minds are doing And because of pragmatism's far reaching impact Shook shows how its views on reality truth knowledge and cognition coordinate with its approaches to agency sociality human nature and personhood **Young William James Thinking** Paul J. Croce, 2018 Ultimately Young William James Thinking reveals how James provided a humane vision well suited to our pluralist age **Democratic Hope** Robert B. Westbrook, 2015-05-27 The pragmatists response to the claim that theirs is a deeply

American philosophy has been less to challenge the claim than to attempt to embrace it on their own terms. One could speak of a national philosophy as one could not speak of a national chemistry or physics. But national cultures were complicated and often conflicted. Hence the relationship between a philosophy and a national culture could be at once close and fraught with tension from Democratic Hope Pragmatism as Richard Rorty has said names the chief glory of our country's intellectual tradition. In Democratic Hope Robert B. Westbrook examines the varieties of classical pragmatist thought in the work of John Dewey, William James, and Charles Peirce, testing in good pragmatic fashion the truth of propositions by their consequences in experience. Westbrook also attends to the recent revival of pragmatism by Rorty, Cheryl Misak, Richard Posner, Hilary Putnam, Cornel West, and others, and to pragmatist strains in contemporary American political thinking. Westbrook's aims are both historical and political: to ensure that the genealogy of pragmatism is an honest one and to argue for a hopeful vision of deliberative democracy underwritten by a pragmatist epistemology and ethics.

A Pragmatists Progress Richard Rorty And American Intellectual History American Intellectual Culture Book Review: Unveiling the Magic of Language
