A Moscow Math Circle Week By Week Problem Sets Msri Mathematical Circles Library:

A Moscow Math Circle Sergey Dorichenko, 2011-12-29 Moscow has a rich tradition of successful math circles to the extent that many other circles are modeled on them This book presents materials used during the course of one year in a math circle organized by mathematics faculty at Moscow State University and also used at the mathematics magnet school known as Moscow School Number 57 Each problem set has a similar structure it combines review material with a new topic offering problems in a range of difficulty levels This time tested pattern has proved its effectiveness in engaging all students and helping them master new material while building on earlier knowledge The introduction describes in detail how the math circles at Moscow State University are run Dorichenko describes how the early sessions differ from later sessions how to choose problems and what sorts of difficulties may arise when running a circle The book also includes a selection of problems used in the competition known as the Mathematical Maze a mathematical story based on actual lessons with students and an addendum on the San Jose Mathematical Circle which is run in the Russian style In the interest of fostering a greater awareness and appreciation of mathematics and its connections to other disciplines and everyday life MSRI and the AMS are publishing books in the Mathematical Circles Library series as a service to young people their parents and teachers and the mathematics profession

Competitions for Young Mathematicians Alexander Soifer, 2017-06-15 This book gathers the best presentations from the Topic Study Group 30 Mathematics Competitions at ICME 13 in Hamburg and some from related groups focusing on the field of working with gifted students Each of the chapters includes not only original ideas but also original mathematical problems and their solutions The book is a valuable resource for researchers in mathematics education secondary and college mathematics teachers around the globe as well as their gifted students

Inspiring Mathematics: Lessons from the Navajo Nation Math Circles Dave Auckly, Bob Klein, Amanda Sereney, Tatiana Shubin, 2019-12-05 The people of the Navajo Nation know mathematics education for their children is essential They were joined by mathematicians familiar with ways to deliver problems and a pedagogy that through exploration shows the art joy and beauty in mathematics This combined effort produced a series of Navajo Math Circles interactive mathematical explorations across the Navajo Reservation This book contains the mathematical details of that effort Between its covers is a thematic rainbow of problem sets that were used in Math Circle sessions on the Reservation The problem sets are good for puzzling over and exploring the mathematical ideas within They will help nurture curiosity and confidence in students The problems come with suggestions for pacing for adjusting the problems to be more or less challenging and for different approaches to solving them This book is a wonderful resource for any teacher wanting to enrich the mathematical lives of students and for anyone curious about mathematical thinking outside the box In the interest of fostering a greater awareness and appreciation of mathematics and its connections to other disciplines and everyday life MSRI and the AMS are publishing books in the Mathematical Circles Library series as a service to young people their parents and teachers and the mathematics profession
