Joseph John Godfrey, Alfonso Verdú

A Philosophy Of Human Hope A Philosophy Of Human Hope:

A Philosophy of Human Hope J.J. Godfrey, 1987-03-31 Few reference works in philosophy have articles on hope Few also are systematic or large scale philosophical studies of hope Hope is admitted to be important in people s lives but as a topic for study hope has largely been left to psychologists and theologians For the most part philosophers treat hope en passant My aim is to outline a general theory of hope to explore its structure forms goals reasonableness and implications and to trace the implications of such a theory for atheism or theism What has been written is quite disparate Some see hope in an individualistic often existential way and some in a social and political way Hope is proposed by some as essentially atheistic and by others as incomprehensible outside of one or another kind of theism Is it possible to think consistently and at the same time comprehensively about the phenomenon of human hoping Or is it several phenomena How could there be such diverse understandings of so central a human experience On what rational basis could people differ over whether hope is linked to God What I offer here is a systematic analysis but one worked out in dialogue with Ernst Bloch Immanuel Kant and Gabriel Marcel Ernst Bloch of course was a Marxist and officially an atheist Gabriel Marcel a Christian theist and Immanuel Kant was a theist but not in a conventional way *A Philosophy of Human Hope* Joseph John Godfrey, Alfonso Verdú, 1987

A Philosophy of Hope Bernard N. Schumacher, 2003 Schumacher looks at hope as a virtue one opposed by vices such as despair and presumption particularly as they are treated in existentialism and Marxism He also explores Pieper s treatment of hope in relation to the ideas of death and immortality and in the philosophy of history Using the idea of hope to examine such themes as dignity ethics the good and the just Schumacher provides a valuable wide ranging introduction to a shaper of contemporary Christian thought against a richly drawn intellectual background BOOK JACKET The Principle of Political Hope Loren Goldman, 2022-12-27 In *The Principle of Political Hope* Loren Goldman draws on Immanuel Kant Ernst Bloch Charles Peirce William James and John Dewey to offer an account of political hope as a frame for navigating the relationship between subjective aspiration and objective possibility Considering what political hope is how it operates how it has been thought about and how to think about it in the contemporary world Goldman s conceptualization of hope rejects grand notions of progress while still maintaining the possibility of a brighter future Refreshing and lucid Goldman reconstructs hope as a necessary precondition for social and political engagement reinvigorating the possibility of utopia in the process

A Philosophical Analysis of Hope J. Waterworth, 2003-12-16 Despite the familiarity of hope in human experience it is a phenomenon infrequently considered from a philosophical point of view This book charts the centrality of hope in thought and action from first second and third person perspectives From everyday situations to extreme circumstances of trial and endings in life the contours of hope are given a phenomenological description and subjected to conceptual analysis This consistently secular account of hope sheds a different light on questions of agency and meaning **The Virtue of Hope** Nancy E. Snow, Lewis Ricardo Gordon, 2024 What is hope In the history of western philosophy to the present day there is

tremendous disagreement about the answer to this seemingly simple question Contemporary philosophical literature on hope on the subject is robust complex and full of interesting debates Whether hope is good or bad and whether we should focus not on hope but on hopes hoping or hopefulness as some contemporary philosophers argue are contested questions This volume features eleven chapters by scholars from different disciplines each providing a unique perspective on hope It includes discussion and analysis of classical texts Judeo Christian traditions non religious contexts epistemology existentialism Black oppression Zen Buddhism eschatology theological anthropology psychology and optimism culture education theory and climate change Hardly any stones are left unturned in this interdisciplinary collection of one of philosophy s most vexing virtues The study of hope is ongoing in many fields This volume will be useful to scholars in a variety of disciplines who wish to learn more about hope and to contribute to the myriad discussions currently taking place

Encyclopedia of Ethics Lawrence C. Becker, Charlotte B. Becker, 2013-10-18 The editors working with a team of 325 renowned authorities in the field of ethics have revised expanded and updated this classic encyclopedia Along with the addition of 150 new entries all of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features New entries include Cheating Dirty hands Gay ethics Holocaust Journalism Political correctness and many more

Hope as Atmosphere Xu Wang, 2022-07-11 In this thesis the phenomenon of fundamental hope is understood as atmosphere As a metaphor hope as atmosphere finds a new expression of hope other than the light metaphor that dominates the discourse of hope Hope is not only the light that illuminates the dark moments of life but also more fundamentally in the air it lies in the sphere in between and saturates each life experience and every living moment As an existential reality hope as atmosphere reveals our hopeful way of atmospheric co existence Communal love constitutes the ground of this hopeful co existence it keeps the hopeful co existence constantly refreshed and open guaranteeing more possibilities of hope On the basis of communal love hopeful co existence shows its ontological meaning as a way towards life The thesis of hope as atmosphere finds resonance and expression not only in Christian trinitarianly based understanding of hope but also in the most central doctrine of co humanity in Confucianism

Deep Symbols Edward Farley, 2010-06-15 Here is an absorbing and exceptionally perceptive account of how deep symbols or words of power which tend to be a culture s normative language have undergone diminishment in a contemporary postmodern society Edward Farley explains that such diminishment does not necessarily imply their demise since traces of these symbols remain and invite their rethinking Two introductory chapters spell out the character and prospect of deep symbols in postmodern society Then follow five chapters each of which considers a particular deep symbol tradition obligation duty reality law and hope A concluding chapter shows the structural entanglement of these symbols with each other and their relation to the sacred and the interhuman From the opening chapter Words of power that is deep and enduring symbols that shape the values of a society and guide the life of

faith morality and action are subject to powerful forces of discreditation and even disenchantment If this is so we must find ways to recover their power or live without them Edward Farley is Professor of Theology at Vanderbilt University and the author of many books including *Good and Evil Interpreting a Human Condition* *Hope is a Strategy* Ian B. Pettigrew, 2025-12-08 There s a global hope crisis Here s how to fix it Some people say that hope isn t a strategy Ian Pettigrew strongly believes that it is Hopelessness keeps people stuck where they are Hope is a powerful motivator that helps you focus on what you want and do everything in your power to achieve it It also helps you navigate the inevitable bumps in the road on the journey Hope is active and has nothing to do with naive optimism wishful thinking or toxic positivity This book is for leaders who want to build hope in themselves their teams and their organizations so that they can succeed whilst being happy engaged and resilient Full of evidence based approaches interwoven with both extraordinary and everyday stories of hope it explores what hope really is and the damage caused by getting it wrong Hope changes lives in this book Ian Pettigrew strengths coach and one of HR s most influential thinkers provides a blueprint for leaders to discover it for themselves and to help others find it too
