Universal Teaching Strategies H. Jerome Freiberg, Amy Driscoll, 2000 This book presents teaching from three specific actions: Organizing, Instructing, and Assessing, and is divided into three sections which reflect each of these teaching actions. The strategies presented in each section are truly universal in nature; they cut across grade levels, subject areas, and teaching situations. The book emphasizes Context, Content, and Learner as essential elements in the decision-making process. This book bridges the gap between theory, research, and practice with clear and effective writing and a framework that combines the context, content, and learner with what teachers need in the real world: organizing, instructing, and assessing. *Universal Teaching Strategies* expands both the pedagogical teaching knowledge of teachers and their instructional repertoires. For the continuing education of pre-service and in-service teachers.
