Energy Medicine East and West David F. Mayor, Marc S. Micozzi, 2011-05-31. Energy Medicine East and West A Natural History of Qi provides a unique comprehensive overview of Qi or bioenergy for students and practitioners of energy medicines, Chinese and Oriental Medicine, and all disciplines of Complementary and Integrative Medicine. Mayor and Micozzi start with a comparative historical account of the ancient concepts of Qi and vital energy, before covering theories of Qi, a discussion of the organized therapeutic modalities based upon Qi and its applications to specific health and medical conditions. Contributions are included from international experts in the field. The book moves from anatomical and bioenergetic complementarity of Western vital energy and Eastern Qi through convergence of perspectives and models to demonstrations of how the traditional therapies are being melded together in a new original and creative synthesis. David Mayor and Marc Micozzi are experienced medical practitioners, authors and editors. David Mayor has been actively involved in bioenergy research, practice and publishing for over 30 years and is author/editor of Electroacupuncture: A practical manual and resource 2007, as well as other acupuncture texts and studies. Marc Micozzi is Professor in the Department of Physiology and Biophysics at Georgetown University School of Medicine, Washington DC. As author/editor of Fundamentals of Complementary Course, director MSc Acupuncture, Coventry University, UK. Over the last decade, most books on Asian medicine paid tribute to the aura of evidence-based medicine; experience counted little. RCTs were convincing. This book at last returns to an old tradition of debate, opening up quite a few new horizons. Reading it, my striving for knowledge was married with enjoyment and happiness. This book made me happy. Thomas Ots, MD, PhD, Medical acupuncturist specialising in psychiatry, Graz, Austria. Editor in Chief, Deutsche Zeitschrift für Akupunktur. To simply review the chapter headings is to know the truly remarkable expanse of this book, a wonderful bridge between the mysteries of the East and the sciences of the West, well documented, well written, and enlarging both. Enlightening, nicely depicts outstanding advances in energy psychotherapeutics, thus ultimately helping to move forward the human condition. Maurie D. Pressman, MD, Emeritus Clinical Professor of Psychiatry, Temple University School of Medicine, Philadelphia, PA. Emeritus Chairman of Psychiatry, Albert Einstein Medical Center, Philadelphia, PA. past President, International Society for the Study of Subtle Energies and Energy Medicine, Lafayette, CO, USA.
