Eugene Helm, 2012-12-06 Where did the major scale come from Why does most traditional non Western music not share Western principles of harmony What does the inner structure of a canon have to do with religious belief Why in historical terms is J S Bach's music regarded as a perfect combination of melody and harmony Why do clocks in church towers strike dominant tonic dominant tonic What do cathedrals have to do with monochords How can the harmonic series be demonstrated with a rope tied to a doorknob and how can it be heard by standing next to an electric fan Why are the free ocean waves in Debussy's La Mer the turbulent river

waves in Smetana's Moldau and the fountain ripples in Ravel's Jeux d'Eau pushed at times into four bar phrases Why is the metric system inherently unsuitable for organizing music and poetry In what way does Plato's Timaeus resemble the prelude to Wagner's Das Rheingold Just how does Beethoven's work perfectly illustrate fully functional tonality and why were long range works based on this type of tonality impossible before the introduction of equal temperament In this new century what promising materials are available to composers in the wake of harmonic experimentation and some would argue exhaustion The answers to these seemingly complicated questions are not the sole province of music professors or orchestra conductors In fact as E Eugene Helm demonstrates they can just as easily be explained to amateurs and their answers are important if we are to understand how Western music works The full range of Western music is explored through 21 concise chapters on such topics as melody harmony counterpoint texture melody types improvisation music notation free imitation canon and fugue vibration and its relation to harmony tonality and the place of music in architecture and astronomy Intended for amateurs and professionals concert goers and conductors Helm offers in down to earth language an explanation of the foundations of our Western music heritage deepening our understanding and the listening experience of it for all *The Musical Times and Singing-class Circular*, 1873
