The Art of Mary Linwood Heidi A. Strobel, 2023-11-30 The Art of Mary Linwood is the first book on Leicester textile artist Mary Linwood 1755 1845 and catalogue of her work When British textile artist and gallery owner Mary Linwood died in 1845 just shy of 90 years old her estate was worth the equivalent of 5 199 822 in today s currency As someone who made but did not sell embroidered replicas of famous artworks after artists such as Gainsborough Reynolds Stubbs and Morland how did she accumulate so much money A pioneering woman in the male dominated art world of late Georgian Britain Linwood established her own London gallery in 1798 that featured copies of well known paintings by these popular artists Featuring props and specially designed rooms for her replicas she ensured that her visitors had an entertaining educational and kinetic tour similar to what Madame Tussaud would do one generation later The gallery s focus on picturesque painters provided her London visitors with an idyllic imaginary journey through the countryside Its emphasis on quintessentially British artists provided a unifying focus for a country that had recently emerged from the threat of Napoleonic invasion This book brings to the fore Linwood s gallery guides and previously unpublished letters to her contemporaries such as Birmingham inventor Matthew Boulton and Queen Charlotte It also includes the first and only catalogue of Linwood s extant and destroyed works By examining Linwood s replicas and their accompanying objects through the lens of material culture the book provides a much needed contribution to the scholarship on women and cultural agency in the early 19th century [The ^AOxford Handbook of Communist Visual Cultures](#) Aga Skrodzka, Xiaoning Lu, Katarzyna Marciniak, 2020-06-04 Looking at monuments murals computer games recycling campaigns children s books and other visual artifacts The Oxford Handbook of Communist Visual Cultures reassesses communism s historical and cultural legacy **Landscape and Vision in Nineteenth-Century Britain and France** Michael Charlesworth, 2017-07-05 A study of the ways landscape was perceived in nineteenth century Britain and France this book draws on evidence from poetry landscape gardens spectacular public entertainments novels and scientific works as well as paintings in order to develop its basic premise that landscape and the processes of perceiving it cannot be separated Vision embraces panoramic seeing from high places but also the seeing of ghosts and spectres when madness and hallucination impinge upon landscape The rise of geology and the spread of empires upset the existing comfortable orders of comprehension of landscape Reverie and imagination produced powerful interpretive actions while landscape in French culture proved central to the rejection of conservative classicism in favour of perceptual questioning of experience The experience of subjectivity proved central to the perception of landscape while the visual culture of landscape became of paramount importance to modernity during the period in question [International Handbook of Research in Arts Education](#) Liora Bresler, 2007-01-26 Providing a distillation of knowledge in the various disciplines of arts education dance drama music literature and poetry and visual arts this essential handbook synthesizes existing research literature reflects on the past and contributes to shaping the future of the respective and integrated disciplines of arts education While research

The Satirical Gaze Cindy McCreery, 2004 This is the first scholarly study to focus on satirical prints of women in the late eighteenth century This was the golden age of graphic satire thousands of prints were published and they were viewed by nearly all sections of the population These prints both reflected and sought to shape contemporary debate about the role of women in society Cindy McCreery's study examines the beliefs and prejudices of Georgian England which they revealed

Physiognomy in Profile Melissa Percival, Graeme Tytler, 2005 Physiognomy in Profile affirms and assesses Lavater's contribution to European culture in the two hundred years after his death It examines how Lavater's vision of physiognomy as a viable method of interpreting the modern world has been repeatedly affirmed and challenged Previous monographs on Lavater have tended to focus on one particular theme discipline or historical period but this study deliberately adopts a cross disciplinary approach and covers a broad historical time frame Some widely different material is juxtaposed painting photography fiction journalism medical texts in order to explore recurring issues in physiognomical thought Essays are arranged in chronological order so that the reader can gain a sense of the shared preoccupations of Lavater's contemporaries and successors But the book may also be read thematically

The Visual Worlds of Life Writing Kerstin Maria Pahl, 2025-01-04 An Open Access edition is available The Visual Worlds of Life Writing brings into conversation the two most popular genres in long eighteenth century England portraits and biographies As key instruments of social formation when Britain was forging the nation Linda Colley they were wielded alike by Whigs and Tories the aristocracy and the commercial middle classes high class artists and grub street writers They were most persuasive however when used jointly portrait prints ideally accompanied by Brief Lives sold by the thousands National histories were re issued to include pictures Portraitists were required to stage their sitters as though taken from real life situations Embedded into such interplay between texts and images was an aesthetic claim doing biography was a multimedia enterprise Far from being just words on a page eighteenth century life writing came with frontispiece portraits illustrations or elaborate title pages

Biographers directed their readers to existing portraits of their subjects to enhance the reading experience Portraits made of calligraphic writing blurred the boundaries between text and image As a thorough reassessment of visual culture s role in producing biographies this book offers an in depth analysis of the rhetorics of portraiture and life writing an historical account of their sister arts tradition and an inquiry into the social function of profiling people **A Noble Art** Kim Sloan,2000 The words amateur artist conjure up a picture of Victorian ladies and gentlemen sketching in watercolours out of doors This text challenges such an image describing and illustrating over 200 works from the British Museum s collections
