A Philip Randolph The Religious Journey Of An African American Labor Leader:

A. Philip Randolph Cynthia Taylor, 2005-12-01 Important insights into the life and mind of one of the most significant civil rights leaders of the twentieth century A Philip Randolph founder of the Brotherhood of Sleeping Car Porters was one of the most effective black trade unionists in America Once known as the most dangerous black man in America he was a radical journalist a labor leader and a pioneer of civil rights strategies His proteg Bayard Rustin noted that With the exception of W E B Du Bois he was probably the greatest civil rights leader of the twentieth century until Martin Luther King Scholarship has traditionally portrayed Randolph as an atheist and anti religious his connections to African American religion either ignored or misrepresented Taylor places Randolph within the context of American religious history and uncovers his complex relationship to African American religion She demonstrates that Randolph s religiosity covered a wide spectrum of liberal Protestant beliefs from a religious humanism on the left to orthodox theological positions on the right never straying far from his African Methodist roots

A. Philip Randolph Andrew Edmund Kersten, 2007 Before the emergence of Reverend Martin Luther King Jr there were several key leaders who fought for civil rights in the United States Among them was A Philip Randolph who perhaps best embodied the hopes ideals and aspirations of black Americans Born in the South at the start of the Jim Crow era Randolph was by his thirtieth birthday a prime mover in the movement to expand civil social and economic rights in America A Socialist and a radical Randolph devoted his life to energizing the black masses into collective action He successfully organized the all black Brotherhood of Sleeping Car Porters and led the March on Washington Movement during the Second World War In this engaging new book historian Andrew E Kersten explores Randolph s significant influences and accomplishments as both a labor and civil rights leader Kersten pays particular attention to Randolph s political philosophy his involvement in the labor and civil rights movements and his dedication to improving the lives of American workers

A. Philip Randolph and the Struggle for Civil Rights Cornelius L. Bynum, 2010-12-13 A Philip Randolph s career as a trade unionist and civil rights activist shaped the course of black protest in the mid 20th century This book shows that Randolph s push for African American equality took place within a broader progressive program of industrial reform

Rhetoric, Religion and the Civil Rights Movement, 1954-1965 Davis W. Houck, David E. Dixon, 2006 V 2 Building upon their critically acclaimed first volume Davis W Houck and David E Dixon s new Rhetoric Religion and the Civil Rights Movement 1954 1965 is a recovery project of enormous proportions Houck and Dixon have again combed church archives government documents university libraries and private collections in pursuit of the civil rights movement s long buried eloquence Their new work presents fifty new speeches and sermons delivered by both famed leaders and little known civil rights activists on national stages and in quiet shacks The speeches carry novel insights into the ways in which individuals and communities utilized religious rhetoric to upset the racial status quo in divided America during the civil rights era Houck and Dixon s work illustrates again how a movement so prominent in historical scholarship still has much to teach

that contrary to historical and popular depictions of African Americans as naturally religious freethought has been central to black political and intellectual life from the nineteenth century to the present Freethought encompasses many different schools of thought including atheism agnosticism and nontraditional orientations such as deism and paganism Christopher Cameron suggests an alternative origin of nonbelief and religious skepticism in America namely the brutality of the institution of slavery He also traces the growth of atheism and agnosticism among African Americans in two major political and intellectual movements of the 1920s the New Negro Renaissance and the growth of black socialism and communism In a final chapter he explores the critical importance of freethought among participants in the civil rights and Black Power movements of the 1960s and 1970s Examining a wealth of sources including slave narratives travel accounts novels poetry memoirs newspapers and archival sources such as church records sermons and letters the study follows the lives and contributions of well known figures including Frederick Douglass Zora Neale Hurston James Baldwin and Alice Walker as well as lesser known thinkers such as Louise Thompson Patterson Sarah Webster Fabio and David Cincore The Making of Black Detroit in the Age of Henry Ford Beth Tompkins Bates, 2012-09-24 In the 1920s Henry Ford hired thousands of African American men for his open shop system of auto manufacturing This move was a rejection of the notion that better jobs were for white men only In The Making of Black Detroit in the Age of Henry Ford Beth Tompkins Bates explains how black Detroiters newly arrived from the South seized the economic opportunities offered by Ford in the hope of gaining greater economic security As these workers came to realize that Ford's anti union American Plan did not allow them full access to the American Dream their loyalty eroded and they sought empowerment by pursuing a broad activist agenda This in turn led them to play a pivotal role in the United Auto Workers challenge to Ford's interests In order to fully understand this complex shift Bates traces allegiances among Detroit's African American community as reflected in its opposition to the Ku Klux Klan challenges to unfair housing practices and demands for increased and effective political participation This groundbreaking history demonstrates how by World War II Henry Ford and his company had helped kindle the civil rights movement in Detroit without intending to do so Race and Renaissance Joe William Trotter Jr., Jared N. Day, 2010-06-27 African Americans from Pittsburgh have a long and distinctive history of contributions to the cultural political and social evolution of the United States From jazz legend Earl Fatha Hines to playwright August Wilson from labor protests in the 1950s to the Black Power movement of the late 1960s Pittsburgh has been a force for change in American race and class relations Race and Renaissance presents the first history of African American life in Pittsburgh after World War II It examines the origins and significance of the second Great Migration the persistence of Jim Crow into the postwar years the second ghetto the contemporary urban crisis the civil rights and Black Power movements and the Million Man and Million Woman marches among other topics In recreating this period Trotter and Day draw not only from newspaper articles and other primary and secondary sources but also from oral histories These include interviews with African Americans who lived in Pittsburgh

during the postwar era which reveal firsthand accounts of what life was truly like during this transformative epoch *Race and Renaissance* illuminates how Pittsburgh's African Americans arrived at their present moment in history It also links movements for change to larger global issues civil rights with the Vietnam War affirmative action with the movement against South African apartheid As such the study draws on both sociology and urban studies to deepen our understanding of the lives of urban blacks
