A Primer On Crime And Delinquency Theory Fourth Edition:

A Primer on Crime and Delinquency Theory Robert M. Bohm, Brenda Vogel, 2015 The fourth edition of *A Primer on Crime and Delinquency Theory* is substantially less expensive than earlier editions and has been reformatted with a much more user friendly layout The primary purpose for writing this edition however has not changed since the first edition to provide both undergraduate and graduate students with a relatively brief but comprehensive exposition of crime and delinquency theories The book should prove useful either as a primary text with or without instructor supplements or as a supplement to other texts anthologies or collections of journal articles As noted in the first three editions of this book although many fine criminological texts are on the market none of them precisely provides the material in a manner that the authors believe students of crime and delinquency theory ought to receive For example some texts contain much more material than ever can be covered satisfactorily within the time constraints of an academic semester or quarter Consequently instructors are forced to ignore some theories or offer a superficial rendering of some of the theories that they do present With this slim volume instructors need not worry about such time constraints but still can be confident that they are presenting a reasonably comprehensive description Some texts focus only on one or another theoretical perspective and thus ignore the rich multidisciplinary nature of crime and delinquency theory For example many criminological texts present only sociological theories or when other theories are examined they are given short shrift This text though brief is comprehensive and multidisciplinary in its scope Few of the available criminological texts provide an adequate introduction to theory For example conspicuously missing from these texts are discussions of the critically important issues of the philosophical assumptions on which all theories are based and how theories can be judged in relation to each other This book rectifies each of those omissions Also although other texts present descriptions of the theories few of them identify the policy implications that are either explicit or implicit in all theories A major feature of this book is the description of the policy implications of the theories Perhaps most importantly very few of the available texts incorporate a comprehensive critique of the theories Again a principal feature of this book is a thorough critique of each of the theories In addition to the text study questions are appended to the end of each chapter and an author created test bank and PowerPoint presentations will be available for instructors

A Primer on Crime and Delinquency Theory Robert M. Bohm, 2001 This slim volume offers a comprehensive survey of the major criminological and delinquency theories including their philosophical foundations and policy implications The text can be used as either a primary text or as a supplement for other texts anthologies or collections of journal articles

A Primer on Crime and Delinquency Robert M. Bohm, 1997 This book is a short and affordable primer on basic and modern criminological theories Each chapter organized by theory offers information on the key concepts and precepts of the theory major contributors to the theory and the philosophical context of the theory An ideal text for those courses where coverage of theory is desired but time is limited

A Primer on Crime and Delinquency Theory Robert M.

Bohm,2001 *Criminology Explains Human Trafficking* Sarah Hupp Williamson,2024-08-06 Criminology Explains Human Trafficking provides a comprehensive and accessible overview of criminological theory as it applies to the topic of human trafficking Sarah Hupp Williamson uses real life applications and case studies to highlight the connections between theory research and policy She applies a diverse range of criminological theory to cover different forms of trafficking victims versus offenders the role of migration and globalization domestic and international law anti trafficking efforts and more Through the use of discussion questions activities and policy boxes students come away with a deeper understanding of theory as it applies to the field of human trafficking including how various levels of analysis from the local to the global are often linked

Violence, Conflict, and World Order Gregg Barak,2007 Violence Conflict and World Order Critical Conversations on State Sanctioned Justice examines the interpersonal institutional and structural relations of injustice and violence both domestically and globally through a series of dynamic conversations that are rich with p **Transformative Justice** John Francis Wozniak,2008-01-01 Transformative Justice illustrates how critical restorative and peacemaking perspectives on crime form the basis of a transformative criminology a call for personal and institutional transformation of crime and justice Transformative criminology is explored in terms of theoretical influences peacemaking and restorative applications and next steps to be taken in this needs based and compassionate orientation toward social life Emotions, Decision-Making and Mass Atrocities Olaoluwa Olusanya,2016-05-06 This book rehumanizes perpetrators of mass atrocities At present a victim perpetrator dichotomy appears to be the dominant paradigm perpetrators have either been mechanistically dehumanized that is perceived as unemotional hard hearted and conforming and thereby lacking the core features of human nature or alternatively they have been animalistically dehumanized In other words they are seen as immoral unintelligent lacking self control and likened to animals Within sociology and criminology the dominant view is that genocide and other mass atrocities are committed by technologically lobotomized perpetrators Somehow the process of rationalization is believed to have transformed these people from emotionally healthy people into hollow soulless shells of human beings or zombies devoid of a full range of normal emotions These people are considered bereft of any ability to reason think or feel yet ambulant and able to respond to surrounding stimuli However it is difficult to imagine crime especially those involving a group of people working together for the duration of a particular criminal activity without emotions For instance there is ample evidence suggesting that both crimes of passion and pre meditated crimes involve emotional arousal Furthermore research in fields such as evolutionary biology psychology and sociology of work and organizations suggest that emotions are essential for human progress and survival In addition emotions help us make the right call in risky and uncertain situations in other words the majority of real life situations There is therefore a need to revisit existing assumptions around the role of emotions in mass atrocities *Recent Developments in Criminological Theory* Scott A. Lukas,2017-07-05 This volume contains recent and cutting edge articles from leading criminological theorists The book is organized into ten sections each representing the

latest in the multi disciplinary orientations representing a cross section of contemporary criminological theory These sections include 1 Classical and Rational Choice 2 Biological and Biosocial 3 Psychological 4 Social Learning and Neutralization 5 Social Control 6 Social Ecology Sub cultural and Cultural 7 Anomie and Strain 8 Conflict and Radical 9 Feminist and Gender 10 Critical Criminologies Anarchist Postmodernist Peacemaking The articles were selected based on their contributions to advancing the field including ways in which the authors of each chapter understand the current theoretical tendencies of their respective approaches and how they envision the future of their theories Because of this the articles focus on theory rather than empirical research Of particular note is the tendency toward integration of different perspectives as described by editors Henry and Lukas in their original introduction to this volume **Introduction to Criminology** Frank E.

Hagan,2010-01-15 Introduction to Criminology Seventh Edition is a comprehensive introduction to the study of criminology designed for an introductory undergraduate courses The book focuses on the vital core of criminological theory theory method and criminal behavior Hagan investigates all forms of criminal activity such as organized crime white collar crime political crime and environmental crime He explains the methods of operation the effects on society and how various theories account for criminal behavior New to this edition Expansion of material on psycho social and bio social theories Additional coverage of terrorism in Ch 11 along with ethics in the research methods chapter Ch 2 New chapter on Cybercrime New Epilogue on the future of crime and the newest criminological theories New Career Feature Boxes New Crime Files Feature Boxes End of Chapter Web Research Exercises New full color design and photo program In text links to study site Expanded study site resources including video of the author and original podcasts recorded by the author for each chapter Blackboard and Web CT compatibility
