A Private Family Matter A Private Family Matter:

Family Matters Hilde Løvdal Stephens, 2019-10-15 The first full length study of a pivotal figure in American evangelical faith James Dobson child psychologist author radio personality and founder of the Christian conservative organization Focus on the Family published his first book Dare to Discipline in 1970 and quickly became the go to family expert for evangelical parents across the United States as American evangelicalism rose as a major political force The family expert became a leading voice in the Reagan Revolution and played a role in making American evangelicals even more firmly associated with the Republican Party Dobson s principle beliefs are that the family is the center of Christian America and that the traditional family must be defended from perceived threats such as gay rights feminism abortion and the secularization of public schools Dobson and Focus on the Family dominated Christian media through print radio and online venues and their message reached millions of American evangelical households shaping the cultural sensibilities and political attitudes of evangelical families throughout the culture wars from the 1980s into the 2000s Family Matters James Dobson and Focus on the Family s Crusade for the Christian Home by Hilde L vdal Stephens is an insightful history and analysis of James Dobson s rise to fame effect on American evangelical culture and subsequent descent from relevance Extensively researched L vdal Stephens scoured through Dobson s books articles and other materials published by Focus on the Family in order to explore how evangelicals defined and defended the traditional family as an ideal and as a symbol in an ever changing world By contextualizing the history of Dobson s reign L vdal Stephens s discerning analysis fills an important gap in our understandings of the politics and culture of late twentieth century conservative Christianity in the United States She explores complex topics ranging from Dobson s celebration of what he believes are timeless biblical values such as maintaining strict and defined gender roles to the ways Dobson and Focus on the Family balanced their basic ideals with real everyday lives of average American evangelical families facing the realities of divorce working mothers and other perceived threats to the traditional family

Insurance is a Family Matter Institute of Medicine, Board on Health Care Services, Committee on the Consequences of Uninsurance, 2002-10-18 Health Insurance is a Family Matter is the third of a series of six reports on the problems of uninsurance in the United States and addresses the impact on the family of not having health insurance. The book demonstrates that having one or more uninsured members in a family can have adverse consequences for everyone in the household and that the financial, physical, and emotional well-being of all members of a family may be adversely affected if any family member lacks coverage. It concludes with the finding that uninsured children have worse access to and use fewer health care services than children with insurance, including important preventive services that can have beneficial long-term effects.

Handbook of Autobiography / Autofiction Martina Wagner-Egelhaaf, 2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time. General questions of the literary, e.g. the relation between literature and reality, truth and fiction, the dependency of author, narrator, and figure, or issues of individual and cultural styles, etc. can be studied preeminently in the autobiographical genre. Yet the tradition of life writing has in the course of literary history developed manifold types and forms. Especially in the globalized age, where the media and other technological cultural factors contribute to a rapid transformation of lifestyles, autobiographical writing has maintained even enhanced its popularity and importance. By conceiving autobiography in a wide sense that includes memoirs, diaries, self-portraits, and autofiction, as well as media transformations of the genre, this three-volume handbook offers a comprehensive survey of theoretical approaches, systematic aspects, and historical developments in an international and interdisciplinary perspective. While autobiography is usually considered to be a European tradition, special emphasis is placed on the modes of self-representation in non-Western cultures and on inter- and transcultural perspectives of the genre. The individual contributions are closely interconnected by a system of cross-references. The handbook addresses scholars of cultural and literary studies, students, as well as non-academic readers.
