A New Philosophy Of Society Assemblage Theory And Social Complexity:

A New Philosophy of Society Manuel DeLanda, 2006-11-14 A new and highly original interrogation of social philosophy from one of the world's leading theorists

A New Philosophy of Society Manuel De Landa, 2019 In *A New Philosophy of Society* Manuel DeLanda offers a fascinating look at how the contemporary world is characterized by an extraordinary social complexity Since most social entities from small communities to large nation states would disappear altogether if our cognitive abilities ceased to exist DeLanda proposes a novel approach to social ontology that asserts the autonomy of social entities from the conceptions we have of them He argues that Gilles Deleuze's theory of assemblages provides a framework in which sociologists and geographers studying social networks and regions can properly locate their work and fully elucidate the connections between them Indeed assemblage theory as DeLanda argues can be used to model any community from interpersonal networks and institutional organizations to central governments cities and nation states Bloomsbury Publishing

Prince of Networks: Bruno Latour and Metaphysics Graham Harman, 2009 Prince of Networks is the first treatment of Bruno Latour specifically as a philosopher It has been eagerly awaited by readers of both Latour and Harman since their public discussion at the London School of Economics in February 2008 Part One covers four key works that display Latour's underrated contributions to metaphysics Irreductions Science in Action We Have Never Been Modern and Pandora's Hope Harman contends that Latour is one of the central figures of contemporary philosophy with a highly original ontology centered in four key concepts actants irreduction translation and alliance In Part Two Harman summarizes Latour's most important philosophical insights including his status as the first secular occasionalist The problem of translation between entities is no longer solved by the fiat of God Malebranche or habit Hume but by local mediators Working from his own object oriented perspective Harman also criticizes the Latourian focus on the relational character of actors at the expense of their cryptic autonomous reality This book forms a remarkable interface between Latour's Actor Network Theory and the Speculative Realism of Harman and his confederates It will be of interest to anyone concerned with the emergence of new trends in the humanities following the long postmodernist interval

Slavoj Žižek and Dialectical Materialism Agon Hamza, Frank Ruda, 2016-01-26 This book is the first volume to bring together the most prominent scholars who work on Slavoj Žižek's philosophy examining and interrogating his understanding of dialectical materialism It deserves to be thoroughly and systematically elaborated because it attempts to propose a new foundation for dialectical materialism

Complexity Theory and Law Jamie Murray, Thomas Webb, Steven Wheatley, 2018-07-17 This collection of essays explores the different ways the insights from complexity theory can be applied to law Complexity theory a variant of systems theory views law as an emergent complex self organising system comprised of an interactive network of actors and systems that operate with no overall guiding hand giving rise to complex collective behaviour in law communications and actions Addressing such issues as the unpredictability of legal systems the ability of legal systems to adapt to changes in society the importance of context

and the nature of law the essays look to the implications of a complexity theory analysis for the study of public policy and administrative law international law and human rights regulatory practices in business and finance and the practice of law and legal ethics These are areas where law which craves certainty encounters unending irresolvable complexity This collection shows the many ways complexity theory thinking can reshape and clarify our understanding of the various problems relating to the theory and practice of law

Capitalism and Its Uncertain Future Kristin Plys, Charles Lemert, 2021-10-26 For decades Charles Lemert has been the leading voice in social theory In *Capitalism and its Uncertain Future* he teams up with one of the most creative emerging social theorists Kristin Plys to examine how social theory imagines capitalism This engaging and innovative book provides new perspectives on well known theorists from Adam Smith and Frantz Fanon to Gilles Deleuze while also introducing readers to lesser known theorists such as Lucia Sanchez Saornil Mohammad Ali El Hammi and many more The book examines theories of capitalism from four perspectives macro historical theories of the origins of capitalism postcolonial theories of capitalism that situate capitalism as seen from the Global South theories of capitalism from the perspective of labor and prospective theories of capitalism's uncertain future This provocative and ambitious yet accessible perspective on theories of capitalism will be of interest to anyone who wants to explore where we've been and where we're headed

Theory and Explanation in Geography Henry Wai-chung Yeung, 2023-10-09 **THEORY AND EXPLANATION IN GEOGRAPHY** With this book Henry Yeung puts Geography back into the driver's seat of new theory development Foregrounding mid range theories and mechanism based explanations he offers a pragmatic approach that has the capacity to shape the wider social sciences for years to come The timing of this intervention is pitch perfect as scholars search for ways to understand and intervene in an increasingly distrustful and polarized world **KATHARYNE MITCHELL** Distinguished Professor University of California Santa Cruz USA In *Theory and Explanation in Geography* Yeung presents us with a rare thing an argument for geographical theory with forms of causal explanation at its heart The book is both modest and ambitious Modest in its insistence on mid level theory without a call for some new turn or advocacy for any particular approach Ambitious in its insistence that existing theoretical traditions are inadequate or incomplete insofar as they lack causal explanatory power Geographers will be inspired and or infuriated by Yeung's arguments in this provocative and cogently argued call to theoretical arms for many years to come **Tim Cresswell Ogilvie** Professor of Geography University of Edinburgh UK Critical human geography possesses a distinctive theory culture pluralist creative distributed restless contested prone to turning wary of orthodoxies and fixed positions In this original and provocative contribution the leading economic geographer Henry Yeung steps out beyond his home turf to engage styles and practices of theorizing across this diverse field carving out a new remit and rubric for middle range theorizing **JAMIE PECK** Canadian Research Chair and Distinguished University Scholar University of British Columbia Canada Grounded in a generous reading of a multitude of critical approaches in human geography and their diverse conceptions of theory *Theory and Explanation in Geography* draws

upon cutting edge debates on the mechanism based approach to theory and explanation in analytical sociology political science and the philosophy of social sciences to inform current and future geographical thinking on theory This consolidated conceptual work represents an extension and much further development of the author's well cited works on relational geography critical realism and causal explanation process based methodology globalization and the theory of global production networks and theorizing back and situated knowledges that were published in leading journals in Geography The work has several chapters that identify new directions for Geography's current and future engagement with the wider social sciences and relevant research agendas in geographical thought Its main chapters provide the necessary conceptual toolkits for mobilizing such an expanding research program in the 2020s and beyond Compared to typical texts on geographical thought this book is less retrospective and historical and more prospective in nature Detailing why and how mid range explanatory theories can be better developed through causal mechanisms and relational thinking that have been revitalized in the social sciences Theory and Explanation in Geography is an essential read for academics geographers and scholars seeking unique perspective on an important facet of the field *Handbook of Labour Geography* Andrew Herod, 2025-10-07 This illuminating Handbook provides a comprehensive overview of the exciting field of labour geography examining how spatial circumstances shape workers lives and behaviour as well as how workers shape landscapes It explores the history of labour geography how the field has developed globally and how labour geographers have conceptualised worker agency

Consumer Culture and Postmodernism Mike Featherstone, 2007-07-11 The first edition of this contemporary classic can claim to have put consumer culture on the map certainly in relation to postmodernism This expanded new edition includes a fully revised preface that explores the developments in consumer culture since the first edition a major new chapter on Modernity and the Cultural Question an update on postmodernism and the development of contemporary theory after postmodernism an account of multiple and alternative modernities the challenges of consumer culture in Japan and China The result is a book that shakes the boundaries of debate from one of the foremost writers on culture and postmodernism of the present day Global Networks and European Actors George Christou, Jacob Hasselbalch, 2021-05-30 This book examines the ability of the EU and European actor networks to coherently and effectively navigate manage and influence debates and policy on the international stage It also questions whether increasing complexity across a range of critical global issues and networks has affected this ability Engaging with the growing theoretical and conceptual literature on networks and complexity the book provides a deeper understanding of how the European Union and European actors navigate within global networks and complex regimes across a range of regulatory policy cooperation and foreign and security policy issue areas It sheds light on how far they are able to respond to and shape solutions to some of the most pressing challenges on the global agenda in the 21st century This book will be of key interest to scholars and students of EU European and global networks and more broadly to European and EU studies Global Governance International Relations
