The Unconscious Civilization John Ralston Saul, 2012-11-06 From the author of *Voltaire's Bastards* comes a philosophical examination of how corporatism has become so deeply ingrained into our society how it's destroying democracy and how we can fight against it In this intellectual tour de force John Ralston Saul argues that our society is only superficially based on the individual and democracy and the West now toils unconsciously in the grip of a stifling corporatist structure that serves the needs of business managers and technocrats as it promotes the segmentation of society into competing interest groups and ethnic blocks *Downton Abbey and Philosophy* Adam Barkman, Robert Arp, 2015-10-19 In *Downton Abbey and Philosophy* twenty two professional thinkers uncover the deeper significance of this hugely popular TV saga Millions of viewers throughout the world have been enthralled by this enactment of a vanished world of decorum and propriety because

it presents us with emotional and interpersonal problems that remain urgent for people in the twenty first century Why do we attach such importance to our memories and to particular places What do war and epidemics tell us about life in peacetime and in good health Is it healthy or harmful for people to feel that they know their place What does Downton Abbey teach us about the changes in women s roles since 1912 Do good manners always agree with good morals How can everybody know what no one will talk about What s the justification for a class of people who pride themselves on not having a job Should we sometimes just accept the reality of social barriers to love and abandon the pursuit What happens when community reinforces oppression All of these and many other issues are discussed through a detailed examination of the actual characters and situations in Downton Abbey Broken Mirrors Joe Trotta,Zlatan Filipovic,Houman Sadri,2019-11-07

Dystopian stories and visions of the Apocalypse are nothing new however in recent years there has been a noticeable surge in the output of this type of theme in literature art comic books graphic novels video games TV shows etc The reasons for this are not exactly clear it may partly be as a result of post 9 11 anxieties the increasing incidence of extreme weather and or environmental anomalies chaotic fluctuations in the economy and the uncertain and shifting political landscape in the west in general Investigating this highly topical and pervasive theme from interdisciplinary perspectives this volume presents various angles on the main topic through critical analyses of selected works of fiction film TV shows video games and more
