Environments of the Poor in Southeast Asia, East Asia and the Pacific Aris Ananta, 2014-11-11 This book provides examples of possible triple win solutions for simultaneously reducing poverty raising the quality of the environment and adapting to climate change The book provides empirical evidence and observations from sixteen case studies in Southeast and East Asia and from the Pacific It argues that a spatial approach focussing on the environments in which the poor and vulnerable live would trigger changes for development policies and implementation that better balance environmental and social concerns In line with the post 2015 Millennium Development Goals MDG and Sustainable Development Goals SDG agenda emphasizing integrated development approaches for the slum poor the upland poor the dryland poor the coastal poor and the flood affected wetland poor would also bring the environment and poverty agenda closer The book emerged from a cooperation of the Asian Development Bank ADB with the Institute of Southeast Asian Studies ISEAS in partnership with experts from research institutes and think tanks in the Asian region

Microfinance and Poverty Alleviation Ben Quinones, Joe Remenyi, 2014-02-04 Despite the considerable economic growth of the Asia Pacific poverty continues to be a major problem One key way to create sustainable livelihoods and to provide poor households an escape route from poverty is microfinance Since the early 1980s microfinance practitioners have proven that the poor are creditworthy capable of utilizing scarce capital efficiently in viable income generating projects and able to pay back their loans This book collects the experience of microfinance practitioners in 11 countries in the Asia Pacific region to describe the present state of the art It is designed to provide an overview of the subject why it is so essential to poverty reduction what is the best practice what kind of policy framework and regulatory environment is required It offers both an extensive survey of the academic literature and a selection of case studies all from authors who have been active practitioners in microfinance for many years The case studies cover four key countries in South Asia and three countries in East Asia in which microfinance had become particularly important There is also a regional chapter covering the Pacific islands

World Bank Research Program World Bank, 2008 **When There Was No Money** Heather A. Clark, 2006-03-14 The challenges in development often seem insurmountable They overwhelm nations and the builders of their most basic institutions I am often asked how development finance agencies can work together to meet this challenge In reply I invite you to read a story about cooperation in rebuilding one of the most basic institutions of any society the banking system KfW Bankengruppe places great emphasis on financial sector development Our experience in our own country and beyond our borders shows that one of the first steps is building a banking system that fuels growth through investment in enterprises Micro small and medium enterprises are the backbone of many economies they are also the wealth of the people and generate their hope in the future We believe that the depth of the financial sector is related to economic growth the growth and safety of deposits the facility of payments and the innovation to develop new products and services that strengthen markets and promote investment A strong banking system

supports economic growth by attracting unproductive capital and injecting it into the economy increasing the productivity of the country's capital base and leveraging it by attracting outside capital
