impact on all the 17 SDGs have demonstrated how what began as a health catastrophe swiftly transformed into a human socioeconomic and environmental crisis The 4th BIS brought up The Innovation Chain A Contribution to Society and Industry as the main theme to respond this condition This conference is expected to support the UN Agenda Additionally this conference will also provide avenues for participants to exchange ideas and network with each other as well as domain experts from their fields Overall this event is aimed at professionals across all spheres of technology and engineering including the experienced inexperienced and students as well The conference will be held virtually on Wednesday December 21st 2022 in Magelang Central Java Indonesia

Nature and Culture Sarah Pilgrim, Jules N. Pretty, 2010 There is a growing recognition that the diversity of life comprises both biological and cultural diversity But this division is not universal and in many cases has been deepened by the common disciplinary divide between the natural and social sciences and our apparent need to manage and control nature This book goes beyond divisive definitions and investigates the bridges linking biological and cultural diversity The international team of authors explore the common drivers of loss and argue that policy responses should target both forms of diversity in a novel integrative approach to conservation thus reducing the gap between science policy and practice While conserving nature alongside human cultures presents unique challenges this book forcefully shows that any hope for saving biological diversity is predicated on a concomitant effort to appreciate and protect cultural diversity
