the imposed language influential Can these attitudes change over time The mixed methods results provided by this book are ground breaking because they document how historical and traditional attitudes are changing towards both American English AE and Puerto Rican Spanish PRS on an island where the population has been subjected to both Spanish and US colonization There are presently almost four million people living in Puerto Rico while the Puerto Rican diaspora has surpassed it with more than this living in the United States alone Because of this many members of the diaspora no longer speak PRS yet consider themselves to be Puerto Rican Traditional stances against people who do not live on the island or speak the predominant language PRS yet wish to identify themselves as Puerto Rican have historically led to prejudice and strained relationships between people of Puerto Rican ancestry The sample study provided here shows that there is not only a change in attitude towards the traditional link between PRS and Puerto Rican identity leading to the inclusion of diasporic Puerto Ricans but also a wider acceptance of the English language itself on this Caribbean island
