A MERCIFUL END

THE EUTHANASIA MOVEMENT
IN MODERN AMERICA

IAN DOWBIGGIN

A Merciful End The Euthanasia Movement In Modern America

Sheila McLean

A Merciful End The Euthanasia Movement In Modern America:

A Merciful End Ian Dowbiggin, 2003-01-09 While it may seem that debates over euthanasia began with Jack Kervorkian the practice of mercy killing extends back to Ancient Greece and beyond In America the debate has raged for well over a century Now in *A Merciful End* Ian Dowbiggin offers the first full scale historical account of one of the most controversial reform movements in America Drawing on unprecedented access to the archives of the Euthanasia Society of America interviews with important figures in the movement today and flashpoint cases such as the tragic fate of Karen Ann Quinlan Dowbiggin tells the dramatic story of the men and women who struggled throughout the twentieth century to change the nation's attitude and its laws regarding mercy killing In tracing the history of the euthanasia movement he documents its intersection with other progressive social causes women's suffrage birth control abortion rights as well as its uneasy pre WWII alliance with eugenics Such links brought euthanasia activists into fierce conflict with Judeo Christian institutions who worried that the right to die might become a duty to die Indeed Dowbiggin argues that by joining a sometimes overzealous quest to maximize human freedom with a desire to improve society the euthanasia movement has been dogged by the fear that mercy killing could be extended to persons with disabilities handicapped newborns unconscious geriatric patients lifelong criminals and even the poor Justified or not such fears have stalled the movement as more and more Americans now prefer better end of life care than wholesale changes in euthanasia laws For anyone trying to decide whether euthanasia offers a humane alternative to prolonged suffering or violates the sanctity of life *A Merciful End* provides fascinating and much needed historical context

A Merciful End Ian Robert Dowbiggin, 2023 Ian Dowbiggin tells the dramatic story of those reformers who struggled throughout the 20th century to change the nation's attitudes towards mercy killing and assisted suicide

A Concise History of Euthanasia Ian Dowbiggin, 2007-03-26 This deeply informed history traces the controversial record of mercy killing a source of heated debate among doctors and laypeople alike Dowbiggin examines evolving opinions about what constitutes a good death taking into account the societal and religious values placed **Life and Death Decisions** Sheldon Ekland-Olson, 2014-11-12 Issues of Life and Death such as abortion assisted suicide capital punishment and others are among the most contentious in many societies Whose rights are protected How do these rights and protections change over time and who makes those decisions Based on the author's award winning and hugely popular undergraduate course at the University of Texas this book explores these questions and the fundamentally sociological processes which underlie the quest for morality and justice in human societies The Author's goal is not to advocate any particular moral high ground but to shed light on the social movements and social processes which are at the root of these seemingly personal moral questions Under 200 printed pages this slim paperback is priced and sized to be easily assigned in a variety of undergraduate courses that touch on the social bases underlying these contested and contentious issues *The Death of Humanity* Richard Weikart, 2016-04-04 A book to challenge the status quo spark a debate and get people talking

about the issues and questions we face as a country **Beyond Abortion** Mary Ziegler,2018-02-23 Roe's privacy rationale inspired left leaning movements unrelated to abortion around sexual orientation class gender race disability and patient rights But groups on the right used it as well to attack government involvement in American life Mary Ziegler's analysis shows that privacy belongs to no party or cause **Breaking Free from Death** Galina Rylkova,2020-04-14 *Breaking Free from Death* examines how Russian writers respond to the burden of living with anxieties about their creative outputs and ultimately about their own inevitable finitude What contributes to creative death are not just crippling diseases that make man defenseless in the face of death and not just the arguably universal fear of death but equally important the innumerable impositions on the part of various outsiders Many conflicts in the lives of Rylkova's subjects arose not from their opposition to the existing political regimes but from their interactions with like minded and supporting intellectuals friends and relatives The book describes the lives and choices that concrete individuals and by extrapolation their literary characters must face in order to preserve their singularity and integrity while attempting to achieve fame greatness and success **DYING TO KILL** Kieran Beville,2014-11-26 This is a comprehensive study of euthanasia and assisted suicide It traces the historical debate examines the legal status of such activity in different countries and explores the political medical and moral matters surrounding these emotive and controversial subjects in various cultural contexts The key advocates and pioneers of this agenda driven movement such as the late Jack Kevorkian popularly known as Dr Death and Philip Nitschke founder of Exit International are profiled Not only are the elderly and disabled becoming increasingly vulnerable but children psychiatric patients the depressed and those who are simply tired of life are now on a slippery slope into a dystopian nightmare The spotlight is brought to bear on the Netherlands in particular where palliative care and the hospice movement are greatly underdeveloped as a result of legalization These dubious services are now offered as part of normal medical care in Holland where it is deemed more cost effective to be given a lethal injection The vital role of physicians as healers in society must be preserved and the important but neglected spiritual dimension of death must be explored Thus a biblical view of human life is presented Death and bereavement are universal phenomena and people of all faiths and those of none have a legitimate right to comment However the historic Christian tradition is struggling to be heard in the clamor for personal autonomy and civil liberties in a multi cultural society that is becoming increasingly secular This work provides an ethical framework in which euthanasia and assisted suicide can be evaluated These issues are on the radar indicating a collision course with Christian values It is time for Christians to be alert and to present the case that these are not satisfactory solutions to legitimate end of life concerns *Assisted Dying* Sheila McLean,2007-11-27 *Assisted Dying* explores the law relating to euthanasia and assisted suicide tracing its development from prohibition through to the laissez faire attitude adopted in a number of countries in the 21st Century This book provides an in depth critique of the arguments surrounding legislative control of such practices and particularly looks into the regulatory role of the state In the classical tradition of libertarianism the state is

generally presumed to have a remit to intervene where an individual's actions threaten another rather than harm the individuals themselves. This arguably leaves a question mark over the state's determined intervention in the UK and elsewhere into the private and highly personal choices of individuals to die rather than live. The perceived role of the state in safeguarding the moral values of the community and the need for third party involvement in assisted suicide and euthanasia could be thought to raise these practices to a different level. These considerations may be in direct conflict with the so-called right to die espoused by some individuals and groups within the community. However, this book will argue that the state's interests are and should be second to the interests that the people themselves have in choosing their own death. Assisted Dying is winner of the The Minty Prize of the Society of Authors and winner of the Royal Society of Medicine Book Awards 2008. *Assisted Suicide: The Liberal, Humanist Case Against Legalization* K. Yuill, 2013-03-05. This book presents an atheistic case against the legalization of assisted suicide. Critical of both sides of the argument, it questions the assumptions behind the discussion. Yuill shows that our attitudes towards suicide, not euthanasia, are most important to our attitudes towards assisted suicide.
