Institute. International Conference**

A Modern Introduction To Theology New Questions For Old Beliefs:

A Modern Introduction to Theology Philip Kennedy, 2009-09-22 Philip Kennedy here offers the first book that any student with or without religious convictions can profitably use to get quickly to grips with the essentials of the Christian religion its history and its key thinkers its successes and its failures Most existing undergraduate textbooks of theology begin from essentially traditional positions on the Bible doctrine authority interpretation and God What makes Philip Kennedy's book both singularly important and uniquely different is that it has a completely new starting point The author contends that traditional Christian theology must extensively overhaul many of its theses because of a multitude of modern social historical and intellectual revolutions Offering a grand historical sweep of the genesis of the modern age and writing with panache and a magisterial grasp of the relevant debates conflicts and controversies **A Modern Introduction to Theology** moves a tired and increasingly incoherent discipline in genuinely fresh and exciting directions and will be welcomed by students and readers of the subject

A Modern Introduction to Theology Philip Kennedy, 2009-09-22 Philip Kennedy here offers the first book that any student with or without religious convictions can profitably use to get quickly to grips with the essentials of the Christian religion its history and its key thinkers its successes and its failures Most existing undergraduate textbooks of theology begin from essentially traditional positions on the Bible doctrine authority interpretation and God What makes Philip Kennedy's book both singularly important and uniquely different is that it has a completely new starting point The author contends that traditional Christian theology must extensively overhaul many of its theses because of a multitude of modern social historical and intellectual revolutions Offering a grand historical sweep of the genesis of the modern age and writing with panache and a magisterial grasp of the relevant debates conflicts and controversies **A Modern Introduction to Theology** moves a tired and increasingly incoherent discipline in genuinely fresh and exciting directions and will be welcomed by students and readers of the subject

Christian Identity International Reformed Theological Institute. International Conference, 2008 The volume offers contributions reflecting the understanding of Christian identity in the midst of changing cultural socio economic political and religious context in a globalized world

Violence Chris Jones, 2021-12-14 This collective volume takes a social scientific approach to the subject of violence Violence manifests itself on different levels often beyond our comprehension The book comprises 15 chapters in which experts from different academic disciplines and backgrounds examine violence carefully logically and in a challenging way Although it is written from South African perspectives it is relatable to other countries As a source aimed at local and international scholars researchers and peers it invites open and critical discussion The arguments are presented systematically intersectionally and constructivistically It focuses on violence as an evolutionary phenomenon on how it effects children on interpersonal collective and structural violence on ecological violence and on violence as metaphor amongst others

A History of the Bible John Barton, 2020-08-04 A literary history of our most influential book of all time by an Oxford scholar and Anglican

priest In our culture the Bible is monolithic It is a collection of books that has been unchanged and unchallenged since the earliest days of the Christian church The idea of the Bible as Holy Scripture a non negotiable authority straight from God has prevailed in Western society for some time And while it provides a firm foundation for centuries of Christian teaching it denies the depth variety and richness of this fascinating text In *A History of the Bible* John Barton argues that the Bible is not a prescription to a complete fixed religious system but rather a product of a long and intriguing process which has inspired Judaism and Christianity but still does not describe the whole of either religion Barton shows how the Bible is indeed an important source of religious insight for Jews and Christians alike yet argues that it must be read in its historical context from its beginnings in myth and folklore to its many interpretations throughout the centuries It is a book full of narratives laws proverbs prophecies poems and letters each with their own character and origin stories Barton explains how and by whom these disparate pieces were written how they were canonized and which ones weren't and how they were assembled disseminated and interpreted around the world and importantly to what effect Ultimately *A History of the Bible* argues that a thorough understanding of the history and context of its writing encourages religious communities to move away from the Bible's literal wording which is impossible to determine and focus instead on the broader meanings of scripture

The legacies of Albert Schweitzer reconsidered Izak J.J. Spangenberg, Christina Landman, Amadi Enoch Ahiamadu, Johan Booyse, Pieter Botha, Cornel du Toit, Garth Mason, Menard Musendekwa, Eben Scheffler, Lovemore Togarasei, Andries van Aarde, 2016-12-31 This book on the legacy of Albert Schweitzer contextualises this remarkable intellectualist humanist medicine man theologian and Nobel Prize winner This collected work is aimed at specialists in the humanities social sciences education and religious studies The authors embrace philanthropic values to benefit Africa and the world at large The publication engages with peers on the relevance of Schweitzer's work for humanitarian values in Africa The essays in the book stimulate further research in the various fields in which Schweitzer excelled Its academic contribution is its focus on the post colonial discourse in contemporary discussions both in South Africa and Africa at large The book emphasises Schweitzer's reverence for life philosophy and demonstrates how this impacts on moral values However the book also points to the possibility that Schweitzer's reverence for life philosophy is embedded in a typically European appreciation of mysticism that is not commensurate with African indigenous religious values From an African academic perspective the book advocates the view that Schweitzer's concept of the reverence for life supports not only the Biblical notion of imago Dei but also the African humanist values of the preservation and protection of life criticising the exploitation of the environment by warring factions and large companies especially in oil producing African countries It also argues that Schweitzer's disposition on ethics was influenced by the Second World War his sentiments against nuclear weapons and his resistance to the Enlightenment view of civilisation With regard to Jesus studies the book elucidates values promoted by Schweitzer by following in Jesus steps and portraying Jesus message within a modern world view Taken over from Schweitzer the book

argues that Jesus moral authority resides in his display of love and his interaction with the poor and marginalised The book demonstrates Schweitzer s understanding of Jesus as the one who sacrifices his own life to bring the Kingdom of God to realisation in this world The book commends Schweitzer s insight that we know Jesus through his toils on the one hand and through our own experiences on the other It is in a mixture between the two that the hermeneutical gap between then and now is bridged It is precisely in bridging this gap that Schweitzer sees himself as an instrument of God s healing It defines Schweitzer as the embodiment of being a healer educationalist and herald of the greening of Christianity His philosophy on the reverence for life prepares a foundation for Christians to think green about human life within a greater environment He advocates aspects of education such as lifelong learning holistic education and a problem based approach to education Finally the book analyses both critically and appreciatively Albert Schweitzer s contribution to the concepts of religious healing prevalent in African Christianity today

Christianity Diarmaid MacCulloch,2010-03-18 The New York Times bestseller and definitive history of Christianity for our time from the award winning author of *The Reformation and Silence* A product of electrifying scholarship conveyed with commanding skill Diarmaid MacCulloch s *Christianity* goes back to the origins of the Hebrew Bible and encompasses the globe It captures the major turning points in Catholic Protestant and Orthodox history and fills in often neglected accounts of conversion and confrontation in Africa Latin America and Asia MacCulloch introduces us to monks and crusaders heretics and reformers popes and abolitionists and discover Christianity s essential role in shaping human history and the intimate lives of men and women And he uncovers the roots of the faith that galvanized America charting the surprising beliefs of the founding fathers the rise of the Evangelical movement and of Pentecostalism and the recent crises within the Catholic Church Bursting with original insights and a great pleasure to read this monumental religious history will not soon be surpassed

Christianity Philip Kennedy,2011-02-22 The Christian faith has the allegiance of one third of the human race It has succeeded in influencing civilization to such a degree that we now take its existence almost for granted Yet it might all have been so different Christianity began with the words and deeds of an obscure village carpenter s son who died a shameful criminal s death at the hands of the Roman occupiers of his country itself an insignificant outpost of the powerful ruling Empire The feverish land of biblical Palestine awash with apocalyptic expectations of deliverance from its foreign overlords was hardly short of seers and prophets who claimed to be sent visions from God Yet the followers of this man thought he was different so different in fact that some years after his death and asserted resurrection they scandalously insisted not only that he was sent by God but that he was God How a provincial sect with its seemingly outrageous ideas became first the sanctioned religion of the Roman Empire and then over the course of 2000 years the creed of billions of people is the improbable story that this book tells It is a story of freethinkers friars fanatics and firebrands and of the lay people not just the clerical or the powerful who have made up the great mass of Christians over the centuries Many introductions to Christianity are written by Christians for Christians This elegant

textbook by contrast shows that the history of the religion while often glorious is not one of unimpeded progress but something still more remarkable flawed and human

Critical Essays on Edward Schillebeeckx's Theology Corneliu C. Simut, 2010-02-18 This book presents the main teachings of Edward Schillebeeckx widely considered one of the most important Catholic thinkers of the twentieth century Schillebeeckx is known for his radical departure from traditional theology which he saw as no longer relevant to the modern world Because today's world has been shaped by a process of secularization heavily based on reason and progress in science technology economics urbanism etc modern people seek relevant answers to their deep existential questions that can be explained rationally In his quest to foster relevant and meaningful answers for today's world Schillebeeckx changed the traditional metaphysical content of Christian theology into explanations that radically reinterpret traditional Christian doctrines Primarily the supernatural essence of Christianity is given up as irrelevant and is replaced by a natural perspective on the world In Schillebeeckx's thoroughly historical and truly immanent theology God is man's terrestrial future Christ the symbol of universal human values and the Church is identified with the world as those communities which share these universal human values Schillebeeckx is convinced that these explanations emptied of metaphysical content can help today's people understand their existence in a new relevant and meaningful way

Text and Context Melanie Baffes, 2018-10-24 As biblical hermeneutics moves increasingly toward the inclusion of vernacular approaches to the text understandings of the Bible based on culture context and human experience many communities of faith around the world are contributing their voices to the conversation of global Christianity This volume explores reading methods and text interpretations of believers in South Africa the Caribbean Spain the Netherlands the United States India Kenya Fiji Japan the United Kingdom New Zealand and Nigeria revealing the ways various faith communities read the Bible contextually Essays in this volume also illustrate the impact of the biblical text in people's lives on their understandings of oppression identity the plight of refugees decline and loss the relationship between church and society imperialism homelessness restorative justice bodily experiences of the Holy Spirit and time and the future Together these writings provide an in depth sense of how global Christians read the Bible through the lens of their own tradition or culture as well as how the Bible informs all aspects of their lives as they read the world biblically

A Modern Introduction To Theology New Questions For Old Beliefs Book Review: Unveiling the Magic of Language
