Care of the Older Adult boxes highlight key aspects of nursing assessment and care for this growing population. Key points neatly summarize the most important content for each chapter to help you review and evaluate learning. Evidence-Based Practice boxes include a PICO question, summary of the results of a research study, and a description of how the study has affected nursing practice. In every chapter, Patient-Centered Care boxes address racial and ethnic diversity along with the cultural differences that impact socioeconomic status, values, geography, and religion. 65 Skills and procedural guidelines provide clear, step-by-step instructions for providing safe nursing care. The 5-step nursing process provides a consistent framework for clinical chapters. Concept maps visually demonstrate planning care for patients with multiple diagnoses.
