the kind of lifestyle it generates The roots of the Shinto tradition probably precede this and reflect an awareness of the natural order The oldest shrines came to be located in places that inspired awe and wonder in their observers such as the great Fall of Nachi in Kumano or in mountains that conveyed a sense of power The expanded second edition of the Historical Dictionary of Shinto relates the history of Shinto through a chronology an introductory essay an extensive bibliography and over 800 cross referenced dictionary entries on Shinto concepts significant figures places activities and periods Scholars and students will find the overviews and sources for further research provided by this book to be enormously helpful

Buddhist Exchanges Between India and Japan Ranjana Mukhopadhyaya,Togawa Masahiko,2025-04-30 This book examines the role of Buddhism in India Japan relations through three approaches First it studies the history of interactions between India and Japan especially through Buddhist pilgrimages from Japan to India and how it has influenced both Japanese and Indian Buddhism particularly the Buddhist revival movements and the development of Buddhist sacred sites such as Bodhgaya in India Second it analyses the ideological implications of these Buddhist interactions between Japan and India by focusing on the role of Japanese monks and scholars as agents of Buddhist encounters between the two countries and their contribution towards Buddhist scholarship in Japan and the development of ideologies such as Buddhist nationalism or Pan Asianism in India Japan as well as in other Asian countries Finally it highlights how these historic Buddhist linkages between India and Japan have led to transnational collaborations between Buddhists Buddhist organizations as well as the governments of the two countries and the use of Buddhist heritage as a soft power in the diplomatic relations between India and Japan Drawing on inter disciplinary studies the essays in the volume will be of interest to scholars in history heritage studies religious studies especially Buddhist studies international relations and Asian studies **Religion: Empirical**

Studies Steven J. Sutcliffe,2017-03-02 Treating religion as a fully social cultural historical and material field of practice this book presents a series of debates and positions on the nature and purpose of the Study of Religions or Religious Studies Offering an introductory guide to this influential and politically relevant academic field the contributors illustrate the diversity and theoretical viability of qualitative empirical methodologies in the study of religions The historical and cultural circumstances attending the emergence defence and future prospects of Religious Studies are documented drawing on theoretical material and case studies prepared within the context of the British Association for the Study of Religions BASR and making frequent reference to wider European North American and other international debates and critiques

Foundations of Culture Harald Haarmann,2007 Constructing culture means constructing knowledge and making it operational for the benefit of sustained community life As a cognitive process knowledge construction does not evolve in a vacuum but rather interacts with belief systems and worldview Cultural knowledge is modulated by key factors such as time linear versus non linear conceptions of reality physical imagined virtual identity and intentionality The critical investigation and comparison of cultures in space and time call for a revision of several concepts These include utility as the maxim of

modern Euro American society prototype as an allegedly unified concept of culture evolution and replacement as a generalizing signifier for the exchange of old items for new ones The working of cultural memory is understood as the storage capacity of items of knowledge relating to the past present and future according to parameters of experienced rather than absolute time This study discusses a wide selection of the variables shaping the foundations and fabric of culture starting with the human capacities for symbol making and using sign systems The impact of knowledge construction on the culture process is articulated in 30 postulates concerning the dynamics of communal life and patterns of sustenance the relationship between the natural environment and cultural space and the life cycle of cultures
