A Postcard Journey Along The Upper Mississippi:

A Postcard Journey Along the Upper Mississippi Robert Stumm, 1997 *Grand Excursions on the Upper Mississippi River* Curtis C. & Elizabeth M. Roseman & Roseman, 2009-09-01 In June 1854 the Grand Excursion celebrated in festive style the completion of the Chicago and Rock Island Railroad to the Mississippi River. Hundreds of dignitaries including newspaper editors and other journalists, politicians, academics, writers, and artists, business and industry leaders, and railroad officials were among those who traveled by rail from Chicago to Rock Island, Illinois, then by steamboat to St. Paul in Minnesota Territory. The travelers were shown a region undergoing rapid settlement by Europeans, an area of great natural beauty offering many promises for additional development. Bulletin of the Illinois Geographical Society, 2002 *Economic Impacts of Recreation on the Upper Mississippi River System*, 1989 Economic Impact of Recreation on the Upper Mississippi River System, 1995 **The Waterways Journal**, 2001 Great Lakes and Midwest Catalog Partners Book Distributing, 2007 **Beauty and the Beast** Arnold Arluke, Robert Bogdan, 2010-11-05 From fairy tales to photography, nowhere is the complexity of human-animal relationships more apparent than in the creative arts. Art illuminates the nature and significance of animals in modern Western thought, capturing the complicated union that has long existed between the animal kingdom and us. In *Beauty and the Beast*, authors Arluke and Bogdan explore this relationship through the unique lens of photo postcards. This visual medium offers an enormous and relatively untapped archive to compellingly document their subject. **The Origin Story of Fort Road/West Seventh Street, the Township/City of Saint Paul, the Territory/State of Minnesota: Glacial Age Forward** Joseph Landsberger, 2025-08-01 The relationship of a people to the lands where they live is crucial for understanding their history and culture. From Bdote to Imnizha, from Fort Snelling to Seven Corners, the West End in Saint Paul, Minnesota, has had a complex geologic and demographic history. These origins elucidate settlement patterns beginning with Native peoples, particularly the eastern Dakota. Successive waves of European colonialism, beginning with French explorers, traders, and missionaries, however, eventually displaced the Native population. East Coast claimants and speculators, following acquisition of Native lands, opened those lands to settlement. Early working-class European settler immigrants from Bavaria, Bohemia, and Baden-Württemberg drained swamps and cleared the Big Woods, who worked and built, who organized and socialized. Successive waves included Italians, Irish, Blacks, Jews, et al. They built what has become the oldest housing stock and commercial strip of the State of Minnesota. Fast forward to post-World War II times: the stresses of these same inner-city neighborhoods are reclaimed by a dynamic activist group of neighbors who resist urban renewal plans. While neighborhoods from east to west, from Irvine Park to Kipp's Glenn, were saved, historic sites including the Schmidt Brewery complex and Czech and Slovak Hall achieved national historic prominence. Parks, community centers, schools, churches, streetscapes were restored, often in response to destructive efforts that diminished not only their cultural importance but also environmental, as relates to the Mississippi River, its bluffs, and terraces.
