Prehistory Henning Andersen,2003 Every language includes layers of lexical and grammatical elements that entered it at
different times in the more or less distant past Hence for periods preceding our earliest historical documentation linguistic
stratigraphy the systematic study of such layers may yield information about the prehistory of a given tradition of speaking in
a variety of ways For instance irregular phonological reflexes may be evidence of the convergence of diverse dialects in the
formation of a language and layers of material from different source languages may form a record of changing cultural

Accent Jay Jasanoff,2017-09-04 The Prehistory of the Balto Slavic Accent has been written to fill a gap The interested non

to each other But the reader interested in the Proto Balto Slavic parent system and how it evolved from the very different
system of Proto Indo European has few reliable places to turn The goal of this book is to provide an accentological interface
