A Primer On Highway Finance:

A Primer on Highway Finance Grant M. Davis, William A. Cunningham, 1994 This book is an examination of the current and proposed highway Tax Program deficiencies and proposed solutions to the financial problems confronting highway financing Contents The Importance of Highways Highway Design Cost Allocations and Finance Highway Capital Needs and Concepts of Highway Finance A Brief History of Highway Taxation and Tax Structures Issues Involved in Highway Taxation Highway Financial Methods and Rational Highway Taxes Summary and Recommendations Bibliography Transportation Finance National Research Council (U.S.). Transportation Research Board, 2005 *Debt Finance Practices for Surface Transportation* Tamar Henkin, 2009 This report presents basic principles of debt issuance for public agencies The primary focus is on the current practices of state agencies with responsibilities for surface transportation investment The report may be useful in assisting in the decision on when and how to best use debt financing techniques to fund investments in transportation infrastructure Anticipated audiences include those with financial oversight responsibilities for state departments of transportation DOTs public authorities and local governments Others who may benefit include legislative oversight committees and the media Information for this report was gathered through a literature review a comprehensive survey of state DOTs selected interviews and a study of selected state policies guidelines and documentation Tamar Henkin on behalf of TransTech Management Inc Washington D C collected and synthesized the information and wrote the report The members of the topic panel are acknowledged on the preceding page This synthesis is an immediately useful document that records the practices that were acceptable within the limitations of the knowledge available at the time of its preparation As progress in research and practice continues new knowledge will be added to that now at hand *Information Requirements for Transportation Economic Analysis* National Research Council (U.S.). Transportation Research Board, 2000 Conference participants sought to identify gaps in the data and analytic tools needed to support economic analysis as related to transportation investment and to develop research proposals designed to fill those gaps The opening day of the conference featured presentations by economists transportation analysts and policy makers on the theory and practice of economic analysis and its usefulness to decision makers The second and third days of the conference revolved around participatory workshops Six separate working groups deliberated over three questions 1 What is the appropriate level of investment in transportation to encourage economic health 2 How should projects be prioritized within a multimodal transportation program 3 How much revenue is likely to flow from user charges tolls and other sources At the conclusion of its deliberations each working group developed a list of research proposals which it then presented to the conference as a whole Taking the High Road Bruce Katz, Robert Puentes, 2006-05-25 Since the early 1990s federal transportation laws have slowly started to level the playing field between highway and alternative transportation strategies as well as between older and newer communities The Intermodal Surface Transportation Efficiency Act of 1991 and the Transportation Equity Act for the 21st

Century made substantial changes in transportation practices These laws devolved greater responsibility for planning and implementation to urban development organizations and introduced more flexibility in the spending of federal highway and transit funds They also created a series of special programs to carry out important national objectives and they tightened the linkages between transportation spending and issues such as metropolitan air quality Taking the High Road examines the most pressing transportation challenges facing American cities suburbs and metropolitan areas The authors focus on the central issues in the ongoing debate and deliberations about the nation s transportation policy They go beyond the federal debate however to lay out an agenda for reform that responds directly to those responsible for putting these policies into practice leaders at the state metropolitan and local levels This book presents public officials with options for reform Hoping to build upon the progress and momentum of earlier transportation laws it ensures a better understanding of the problems and provides policymakers journalists and the public with a comprehensive guide to the numerous issues that must be addressed Topics include A wide ranging policy framework that addresses the reauthorization debate An examination of transportation finance and how it affects cities and suburbs An analysis of metropolitan decisionmaking in transportation The challenges of transportation access for working families and the elderly The problems of increasing traffic congestion and the lack of adequate alternatives Contributors include Scot
