Caleb's Healing Story Kathleen A. Chara,Tasha Lehner,2016-06-21 Caleb invites you on a journey to learn about attachment and trauma in this interactive story and workbook intended for children and the adults who support them Caleb shares his own story about healing from his difficult early experiences and encourages readers to join him in sharing their stories and completing the healing activities included in the book Caleb s Healing Story identifies the common challenges that children who have experienced attachment or trauma issues will encounter and offers easy to use interventions in the form of activities and worksheets Fully illustrated it is suitable for children aged 5 14 as well as their family friends and those working with children who present with these issues It is the ideal companion to A Safe Place for Caleb by the same author which outlines theories definitions and strategies for addressing attachment and trauma related disorders *My Second-Favorite Country* Sivan Zakai,2022-06-14 Reveals how young American Jewish children come to develop their views about Israel Israel has long occupied a prominent place in the lives and imaginations of American Jews serving as both a symbolic touchstone and a source of intercommunal conflict In *My Second Favorite Country* Sivan Zakai offers the first longitudinal study of how American Jewish children come to think and feel about Israel tracking their evolving conceptions from kindergarten to fifth grade This work sheds light on the perception of Israel in the minds of Jewish children in the US and provides a rich case study of how children more generally develop ideas and beliefs about self community nation and world In contrast to popular views of America s youth as naive or uninterested this book illuminates both the complexity of their thinking and their desire to be included in conversations about important civic and political matters Zakai draws from compelling empirical data to prove that children spend considerable effort contemplating the very concepts that adults often assume they are not ready to discuss Indeed the book argues that over the course of their elementary school education children develop and express deep interest in complex issues such as the intricacies of identity and belonging conflicting ways of framing the past and the demands of civic responsibility Ultimately Zakai argues that in order to take children s ideas seriously and better prepare them for a world full of disagreement a substantive shift in educational practices is necessary Evolution Avery Blake,Vered Ehsani,2021-10-27 To survive they must evolve The Walker crew has survived despite an alien invasion and the chaos it created Even better they ve managed to keep the device that might protect them from what happens next But a terrible calamity is coming Only a few will survive And the device has room for only two people Worse their alien pursuers won t give up that easily they re willing to use all the resources of their armada to stop the humans from foiling their plan If they re going to survive they ll need to evolve But evolution isn t for everyone Evolution is the third and final book in the Avery Blake and Vered Ehsani series The Next Evolution Discover your new favorite SciFi series today The Provincial Council and Committees of Safety in North Carolina Bessie Lewis Whitaker,James Gilchrist McCormick,1900 **Black Noon** Andrew J.
