A Mental State A Familys Kafkaesque Nightmare When Dementia Struck:

Mental State Gavin Jones, 2013-05-20 A Mental State is a shocking and compelling human interest story of long term abuse of a dementia victim by state officials in one EU country and her family's search for justice A forceful eye witness account from which the public health authorities and justice systems in all countries should learn an object lesson

Entangled Robert Chapman, 2021-07-02 What matters most to you Early childhood abuse mental health diagnoses and later dementia struck our family and changed our world abruptly This book started as an open letter to our children and evolved into a compendium of our lives Through a wide collection of journal entries narrative memoir photos art a brush of poetry physics psychology and philosophy Entangled is an effort to find meaning in the sometimes happy sometimes chaotic life our family our children lived and still live as their mother and my wife of over half a century begins to retreat to disappear into another place This place can seem dark and empty but with some shifting of the ways we view our lives and ultimate death we may discover that it is not empty at all and not defined by words like dark or light Entangled is a testament to a girl victimized in early childhood and the woman she became Entangled provides a look at the life long mental physical health consequences of childhood abuse and the heroic efforts of this woman to confront life on a daily basis Finally with dementia interrupting disrupting and re defining our lives we have choices not about absolution but of acceptance and letting go Love in the Time of Corona is an added text that captures the impact that the Covid 19 Virus has had on our family as it sweeps across our country around the world How it severely interfered with our connection and visitation opportunities in the memory care unit where my wife was placed
