A Model Of Austrian Economics:

A Model of Austrian Economics Hendrik Hagedorn, 2014 After the most recent financial crisis it has become clear that there exists a crisis also in economics as a science The prevailing paradigms have failed to anticipate and to understand the financial crisis New approaches are therefore needed Of particular interest should be approaches that combine insights from those parts of economics that are largely neglected by the mainstream Hendrik Hagedorn presents a model that synthesizes elements of Austrian post Keynesian and evolutionary economics Thus an economic paradigm is developed that challenges neoclassical economics as a whole Contents An agent based economy within an accounting framework Reaction algorithms for households firms and banks A contribution to interest rate theory A comparison of Austrian and neoclassical economics Target Groups Students and researchers in the fields of economics and epistemology of the social sciences Macroeconomic analysts The Author Hendrik Hagedorn is a physicist and an economist He works at an institute for applied economic research in Germany **Austrian Economics: Tensions and New Directions** Bruce J. Böhm, 2012-12-06 When we first invited the group of distinguished scholars represented here to contribute to a new volume on Austrian economics four themes were stressed tensions new directions selectivity and criticism In this brief introduction we will explain why those themes were emphasized and thereby shed light on our intentions and aspirations for the volume The subtitle Tensions and New Directions indicates clearly the intent of the volume desired If we take the 1871 publication of Carl Menger's Principles of Economics Grundsätze der Volkswirtschaftslehre as marking its birth the Austrian tradition is now well over one hundred years old The origins of the so called Austrian Revival are more difficult to pinpoint precisely but many would accept two decades as a reasonable estimate of its lifespan In any case since the mid 1970s several collections of articles written by Austrians have been published The intent of these collections appeared to be to educate persuade and inspire various audiences Uninformed readers needed to be told about the specifics of the Austrian position to be shown how it differed from and improved upon its rivals The initiated needed to be reassured that their commitment to a novel program was justified As such much of the recent Austrian literature has consisted either of exegetical accounts of the views of past figures or of critical assessments of the positions of alternative research programs in economics from an Austrian perspective

Austrian Economics Steven Horwitz, 2020-07-14 What if economics began with people Choice is an essential feature of the human condition Every time we embark on a given plan of action big or small we make a choice Whereas many economists model people's behavior using idealized assumptions economists of the Austrian School don't The Austrian School of Economics takes people as they are and constructs economic theories by examining the logical structure of the choices they make Austrian Economics An Introduction book explains the Austrian School's insights on a wide range of economic topics and introduces some of its key thinkers It also explains the relationship between the Austrian School and mainstream economics and delves into the criticisms that Austrian School economists have mounted against communist and socialist
