Debt Crisis A. Pettifor,2006-10-02 In this book Ann Pettifor examines the issues of debt affecting the first world or OECD countries looking at the history politics and ethics of the coming debt crisis and exploring the implications of high international indebtedness for governments corporations households individuals and the ecosystem Journal of Economic Literature , Land and Taxation Nicholas Tideman,Blundell V H,PhD FRED FOLDVARY,PhD MASON GAFFNEY,M.Sc FRED HARRISON,2023-01-31 With an updated introduction by Fred Harrison Shephard Walwyn has now published this classic book as an eBook Economists know that the optimum conditions for private enterprise are achieved when taxes on the earned incomes of labour and capital are reduced to zero but because neoclassical economic theory insists on treating land as capital they dismiss the obvious alternative to taxing labour and capital the unearned income from land Mason Gaffney explains the importance of recognising land as a distinctive factor of production and the consequences of its uniqueness for economic policy for example that income from land is subject to market forces quite different from those that determine a return on capital Nic Tidman brings together the classical literature on land taxation to explain the argument that such taxation is an economically efficient and ethical revenue source The authors argue that reform of the structure of public finance would make it possible to restore full employment without causing inflation and to reduce the overall tax burden Once again Shephard Walwyn presents a different approach to an old problem *Index of Economic Articles in Journals and Collective Volumes* American Economic Association,1994 **Globalisation for the Common Good** Kamran Mofid,2002 Although many attempts have been made by international organizations like the World Bank and IMF to raise living standards the dire poverty of billions of people and the widening gap between rich and poor both within and between

countries point to the failure of these policies *The Corruption of Economics* Mason Gaffney, Fred Harrison, 1994 The mystery of persistent economic failure is explained The authors accuse the founders of neoclassical economics of distorting the science to protect vested interests and preventing governments from adopting policies that would yield prosperity for everyone
