A Prophetic Peace Alick Isaacs, 2011-09-06 Challenging deeply held convictions about Judaism Zionism war and peace Alick Isaacs's combat experience in the second Lebanon war provoked him to search for a way of reconciling the belligerence of religion with its messages of peace In his insightful readings of the texts of Biblical prophecy and rabbinic law Isaacs draws on the writings of Ludwig Wittgenstein Jacques Derrida Abraham Joshua Heschel and Martin Buber among others to propose an ambitious vision of religiously inspired peace Rejecting the notion of Jewish theology as partial to war and vengeance this eloquent and moving work points to the ways in which Judaism can be a path to peace *A Prophetic Peace* describes an educational project called Talking Peace whose aim is to bring individuals of different views together to share varying understandings of peace

**The Concept of Peace in Judaism, Christianity and Islam** Georges Tamer, 2020-10-26 The eighth volume of the series Key Concepts of Interreligious Discourses investigates the roots of the concept of peace in Judaism Christianity and Islam and its relevance for the present time Facing present violent conflicts waged and justified by religious ideas or reasons peace building prevails in current debates about religion and peace Here the central question is How may traditional sources in religions help to put down the weapons and create a society in which everyone can live safely without hostilities and the threat of violence When we take the Sacred Scriptures of Judaism Christianity and Islam into consideration it becomes obvious that the term peace and its equivalents in Hebrew Greek and Arabic describe at first an ideal state based on the love mercy of God to his creation It is a divine gift that brings inward peace to the individual and outer peace resting upon justice and equality One main task of Jews Christians and Muslims in the history is to find out how to bring down this transcendent ideal upon earth The volume presents the concept of peace in its different aspects as anchored in the traditions of Judaism Christianity and Islam It unfolds commonalities and differences between the three monotheistic religions as well as the manifold discourses about peace within these three traditions The book offers fundamental knowledge about the specific understanding of peace in each one of these traditions their interdependencies and their relationship to secular world views

**Religion and the Politics of Peace and Conflict** Linda Hogan, Dylan Lee

Lehrke,2009-01-01 The Connections Between Religion And Violence are Complex and multifaceted From the conflicts in Middle East and the Balkans to those in Southeast Asia and beyond religion frames and legitimates political violence Moreover in international relations since 9 11 religious language and metaphors have acquired a new significance In this context the emerging consensus appears to be not only that violence is intrinsic to religion but also that religions incite legitimate and intensify political violence However such an unambiguous indictment of religions is incomplete in that it fails both to appreciate significant counter examples and to recognize the diversity that exists within religions on the issue of violence particularly the religious roots of pacifism and the ethics of non violence This collection explores aspects of this ambivalence between religion and violence It focuses on traditions of legitimation and pacifism within the three monotheistic religions Judaism Christianity and Islam and concludes with an examination of this ambivalence as it unfolds in each tradition s engagement with the politics of gender The essays in this collection suggest that the tasks of ameliorating irrational fears and encouraging the recognition of irreducible interreligious complementarity are tasks that can and should be shared by Christianity Judaism and Islam Moreover these traditions are replete with exemplars both historical and contemporary who witness to the possibilities for interreligious dialogue and understanding For religious persons undoubtedly these issues are particularly challenging since they require us to confront the complexities and limitations of our own traditions while also responding to their often radical demands Yet in these complexities lie the possibilities for the religions to develop a greater sense of mutual understanding since it is in these complexities that the commonalities between the religions on the matter of political violence are found from the Introduction *Modern Jewish Thought on Crisis* Ghilad H. Shenhav,Cedric Cohen-Skalli,Gilad Sharvit,2024-01-29 This volume brings together scholars from a range of disciplines to explore the intersections between crisis scholarship and action The aim of this book is to think about the moment of crisis through the concepts writings and methodologies awarded to us by Jewish thinkers in modernity This book offers a broad gallery of accounts on the notion of crisis in Jewish modernity while emphasizing three terms interpretation heresy and messianism The main thesis of the volume is that the diasporic and exilic experience of the Jewish people turned their philosophers and theologians into experts in crisis management who had to find resources within their own religion culture and traditions in order to react endure and overcome short and long term historical crises The underlining assumption of this book is therefore that Jewish thought obtains resources for conceptualizing and reacting to the current forms of crisis in the global European and Israeli spheres The volume addresses a large readership in humanities social and political sciences and religious studies taking as its assumption that scholars in modern Jewish thought have an extended responsibility to engage in contemporary debates The Other Peace Process Ronald Kronish,2017-08-10 This book describes the theory and practice of interreligious dialogue education and action in Israel and Palestine in the context of the political peace process as well as the peace building processes and programs by drawing on personal experiences and encounters of more than twenty

five years Through memorable incidents and inspirational stories the book offers insights into the obstacles and challenges as well as the achievements and successes of interreligious dialogue and action programs In addition it provides a practical model of interreligious dialogue for people around the world and leaves the reader with a message of hope for the future

**Third-Party Peacemakers in Judaism** Daniel Roth,2021-04-28 In the race to discover real solutions for the conflicts that plague contemporary society it is essential that we look to precedent Many of today s conflicts involve ethno religious tensions that modern wisdom alone is ill equipped to resolve In Third Party Peacemakers in Judaism Rabbi Dr Daniel Roth asks us to consider ancient religious and traditional cultural solutions to such present day issues Third Party Peacemakers in Judaism presents an array of case studies featuring third party peacemakers found within Jewish rabbinic literature and serves as an inspiration for fostering indigenous practices of third party peacemaking and mediation in the modern era

**From Enemy to Friend** Rabbi Amy Eilberg,2014-03-31 The first female Conservative rabbi in the U S reflects on ancient Jewish traditions as a guide to reconciliation and peacebuilding in our lives our communities and our world *Youth and Conflict in Israel-Palestine* Victoria Biggs,2020-12-10 How are forbidden histories told and transmitted among young people in Israel Palestine What can their stories teach us about their everyday experiences of segregation and political violence This book investigates how young people use storytelling to navigate borders memory and unseen spaces and to confront questions of belonging and those they see as the other The study is unique in its inclusion of children from a broad spectrum of communities including Palestinian refugee camps and right wing Israeli settlement homes The book shows that boundary spaces are fertile ground for the transmission of forbidden stories and memories Young people are at the centre of the research and Victoria Biggs argues that storytelling reveals much more about their experiences and perceptions than either quantitative data or qualitative interviews Through analysis of the language metaphor violence and endings employed in the stories storytelling is shown to be a political act that plays a vital role in shaping conflict affected young people s concepts of community exclusion and belonging The Seductions of Pilgrimage Michael A. Di Giovine,David Picard,2016-03-09 The Seductions of Pilgrimage explores the simultaneously attractive and repellent beguiling and alluring forms of seduction in pilgrimage It focuses on the varied discursive imaginative and practical mechanisms of seduction that draw individual pilgrims to a pilgrimage site the objects places and paradigms that pilgrims leave behind as they embark on their hyper meaningful travel experience and the often unforeseen elements that lead pilgrims off their desired course Presenting the first comprehensive study of the role of seduction on individual pilgrims in the study of pilgrimage and tourism it will appeal to scholars of anthropology cultural geography tourism heritage and religious studies
