The Economics of Language Policy Michele Gazzola, Bengt-Arne Wickström, 2016-09-30 Insights from the application of economic theories and research methods to the management of linguistic diversity in an era of globalization In an era of globalization issues of language diversity have economic and political implications Transnational labor mobility trade social inclusion of migrants democracy in multilingual countries and companies international competitiveness all have a linguistic

dimension yet economists in general do not include language as a variable in their research This volume demonstrates that the application of rigorous economic theories and research methods to issues of language policy yields valuable insights The contributors offer both theoretical and empirical analyses of such topics as the impact of language diversity on economic outcomes the distributive effects of policy regarding official languages the individual welfare consequences of bilingualism and the link between language and national identity Their research is based on data from countries including Canada India Kazakhstan and Indonesia and from the regions of Central America Europe and Sub Saharan Africa Theoretical models are explained intuitively for the nonspecialist The relationships among linguistic variables inequality and the economy are approached from different perspectives including economics sociolinguistics and political science For this reason the book offers a substantive contribution to interdisciplinary work on languages in society and language policy proposing a common framework for a shared research area Contributors Alisher Aldashev Katalin Buzsi Ramon Caminal Alexander M Danzer Maxime Leblanc Desgagn Peter H Egger Ainhoa Aparicio Fenoll Michele Gazzola Victor Ginsburgh Gilles Grenier François Grin Zoe Kuehn Andrea Lassmann Stephen May Serge Nadeau Suzanne Romaine Selma K Sonntag Stefan Sperlich Jos Ramón Uriarte François Vaillancourt Shlomo Weber Bengt Arne Wickström Lauren Zentz

Language Policy in Ethiopia Mekonnen Alemu Gebre Yohannes, 2021-02-18 This book examines the interplay and tensions between hegemonic and counter hegemonic language policy and processes in Tigray a regional state of Ethiopia in the period of pre and post 1991 Viewing language use and language policy as dynamic social and ideological processes the book presents Ethiopia as an example of language policy creation and implementation over time in a highly volatile political context The case of Ethiopia is unique in that different language policies and practices were put in place as the country's leaders changed through political takeovers Declared language policies were not always implemented and those implemented were often protested The book starts with an overview and review of language policy and planning followed by a chapter on the history of such planning in Ethiopia It then presents the methodology used for the study and examines the appropriation of hegemonic LPP patterns of resistance schools and public sites as centers of resistance and the emergence and development of specific patterns of language use in different regions of the country The book ends with recommendations for future research and draws the overall conclusion that since LPP is a dynamic and multilayered

contextual process official or de facto language policy is often undermined by overt or covert unofficial language policies ideologies mechanisms and agents that result in different patterns of language use
