A Philosophy Of Gardening A Philosophy Of Gardening:

Philosophy for Gardeners Kate Collyns,2022-05-03 In *Philosophy for Gardeners* Kate Collyns uses aspects of gardening to introduce and explore a range of philosophical ideas and schools of thought

A Philosophy of Gardens David E. Cooper,2006-02-02 Why do gardens matter so much and mean so much to people That is the intriguing question to which David Cooper seeks an answer in this book Given the enthusiasm for gardens in human civilization ancient and modern Eastern and Western it is surprising that the question has been so long neglected by modern philosophy Now at last there is a philosophy of gardens Not only is this a fascinating subject in its own right it also provides a reminder that the subject matter of aesthetics is broader than the fine arts that ethics is not just about moral issues but about the good life and that environmental philosophy should not focus only on wilderness to the exclusion of the humanly shaped environment David Cooper identifies garden appreciation as a special human phenomenon distinct from both from the appreciation of art and the appreciation of nature He explores the importance of various garden practices and shows how not only gardening itself but activities to which the garden especially lends itself including social and meditative activities contribute to the good life And he distinguishes the many kinds of meanings that gardens may have from representation of nature to emotional expression from historical significance to symbolization of a spiritual relationship to the world Building on the familiar observation that among human beings creations the garden is peculiarly dependent on the co operation of nature Cooper argues that the garden matters as an epiphany of an intimate co dependence between human creative activity in the world and the mystery that allows there to be a world for them at all *A Philosophy of Gardens* will open up this subject to students and scholars of aesthetics ethics and cultural and environmental studies and to anyone with a reflective interest in things horticultural

A Philosophy of Gardens David Edward Cooper,2023 Why do gardens matter so much and mean so much to people Cooper identifies garden appreciation as a special human phenomenon distinct from both the appreciation of art and the appreciation of nature

A Philosophy of Gardening Katherine Casbeer,2003-09-28 There s more to a garden than meets the eye Yet in the end it s the eye that counts Everything adds up to beauty Things that might otherwise be overlooked are all components of the beautiful flower garden I hope to challenge and entice the reader to enjoy and partake of the Chinese proverb If one is to be happy all of his life first plant a garden Katherine Casbeer
