A Primates Memoir A Neuroscientists Unconventional Life Among The Baboons:

A Primate's Memoir Robert M. Sapolsky, 2007-11-01 In the tradition of Jane Goodall and Dian Fossey Robert Sapolsky a foremost science writer and recipient of a MacArthur Genius Grant tells the mesmerizing story of his twenty one years in remote Kenya with a troop of savanna baboons I had never planned to become a savanna baboon when I grew up instead I had always assumed I would become a mountain gorilla writes Robert Sapolsky in this witty and riveting chronicle of a scientist s coming of age in Africa An exhilarating account of Sapolsky s twenty one year study of a troop of rambunctious baboons in Kenya A Primate s Memoir interweaves serious scientific observations with wry commentary about the challenges and pleasures of living in the wilds of the Serengeti for man and beast alike Over two decades Sapolsky survives culinary atrocities gunpoint encounters and a surreal kidnapping while witnessing the encroachment of the tourist mentality on Africa As he conducts unprecedented physiological research on wild primates he becomes enamored of his subjects unique and compelling characters in their own right and he returns to them summer after summer until tragedy finally prevents him By turns hilarious and poignant A Primate s Memoir is a magnum opus from one of our foremost science writers

A Primate's Memoir Robert M. Sapolsky, 2001 Riveting chronicle of a scientist s coming of age in remote Africa Never Sleep Again! the Most Dangerous Facts about a Primate's Memoir Charlie Frilling, 2013-01 In this book we have hand picked the most sophisticated unanticipated absorbing if not at times crackpot original and musing book reviews of A Primate s Memoir A Neuroscientist s Unconventional Life Among the Baboons Don t say we didn t warn you these reviews are known to shock with their unconventionality or intimacy Some may be startled by their biting sincerity others may be spellbound by their unbridled flights of fantasy Don t buy this book if 1 You don t have nerves of steel 2 You expect to get pregnant in the next five minutes 3 You ve heard it all

Big History Cynthia Stokes Brown, 2012-11-06 This exciting saga crosses space and time to illustrate how humans born of stardust were shaped and how they in turn shaped the world we know today Publishers Weekly This book offers world history on a grand scale pulling back for a wider view and putting the relatively brief time span of human history in context After all our five thousand years of recorded civilization account for only about one millionth of the lifetime of our planet Kirkus Reviews Big History interweaves different disciplines of knowledge drawing on both the natural sciences and the human sciences to offer an all encompassing account of history on Earth This new edition is more relevant than ever before as we increasingly grapple with accelerating rates of change and ultimately the legacy we will bequeath to future generations Here is a path breaking portrait of our world from the birth of the universe from a single point the size of an atom to life on a twenty first century planet inhabited by seven billion people

After Darwin: Animals, Emotions, and the Mind Angelique Richardson, 2013-11-10 What is emotion pondered the young Charles Darwin in his notebooks How were the emotions to be placed in an evolutionary framework And what light might they shed on human animal continuities These were among the questions Darwin explored in his research assisted both by an

acute sense of observation and an extraordinary capacity for fellow feeling not only with humans but with all animal life After Darwin *Animals Emotions and the Mind* explores questions of mind emotion and the moral sense which Darwin opened up through his research on the physical expression of emotions and the human animal relation It also examines the extent to which Darwin's ideas were taken up by Victorian writers and popular culture from George Eliot to the Daily News Bringing together scholars from biology literature history psychology psychiatry and paediatrics the volume provides an invaluable reassessment of Darwin's contribution to a new understanding of the moral sense and emotional life and considers the urgent scientific and ethical implications of his ideas today

Storytelling Apes Mary Sanders Pollock, 2015-05-04 The annals of field primatology are filled with stories about charismatic animals native to some of the most challenging and remote areas on earth There are for example the chimpanzees of Tanzania whose social and family interactions Jane Goodall has studied for decades the mountain gorillas of the Virungas chronicled first by George Schaller and then later more obsessively by Dian Fossey various species of monkeys Indian langurs Kenyan baboons and Brazilian spider monkeys studied by Sarah Hrdy Shirley Strum Robert Sapolsky Barbara Smuts and Karen Strier and finally the orangutans of the Bornean woodlands whom Birut Galdikas has observed passionately Humans are after all storytelling apes The narrative urge is encoded in our DNA along with large brains nimble fingers and color vision traits we share with lemurs monkeys and apes In *Storytelling Apes* Mary Sanders Pollock traces the development and evolution of primatology field narratives while reflecting upon the development of the discipline and the changing conditions within natural primate habitat Like almost every other field primatologist who followed her Jane Goodall recognized the individuality of her study animals defying formal scientific protocols she named her chimpanzee subjects instead of numbering them thereby establishing a trend For Goodall Fossey Sapolsky and numerous other scientists whose works are discussed in *Storytelling Apes* free living primates became fully realized characters in romances tragedies comedies and never ending soap operas With this work Pollock shows readers with a humanist perspective that science writing can have remarkable literary value encourages scientists to share their passions with the general public and inspires the conservation community

Observing Primate Caregivers Maria Botero, 2025-02-17 This book aims to advance our understanding of the caregiver infant interaction in primates and its effect on the development of social cognition working from an interdisciplinary approach i.e psychology philosophy and anthropology challenging the dominant cognitivist perspectives and methodologies This book is important because it contributes to understanding how primate parent and infant interaction works and how it affects the infant's development Understanding this parent and infant interaction contributes to finding better ways to support human parents and provide better care for non human primate mothers and infants in captivity

The Social Behavior of Older Animals Anne Innis Dagg, 2009-02-02 A groundbreaking study on the lives of senior mammals and birds from the aging of alphas to the role of grandmothers by the author of *Animal Friendships* How do young and old social animals view each other Are aged animals

perceived by others as weaker Or wiser What is the relationship between age and power among social animals Taking a cue from Frans de Waal s seminal work examining the lives of chimpanzees Anne Innis Dagg in this pioneering study probes the lives of older mammals and birds Synthesizing the available scientific research and anecdotal evidence she explores how aging affects the lives and behavior of animals ranging from elk to elephants and gulls to gorillas examining such topics as longevity how others in a group view senior members in regard to leadership wisdom and teaching mating success interactions with mates and offspring how aging affects dominance changes in aggressive behavior and adaptability and death and dying At once instructive and compelling this theme spanning book reveals the complex nature of maturity in scores of social species and shows that animal behavior often displays the same diversity we find in ourselves Dagg s book should be a corrective to us all species that lose or ignore the contributions of their older members do so at their peril

Literary Review of Canada Humans and chimps it turns out value age in sexual partners very differently In our species youth is prized but among chimps the reverse is the case The New York Review of Books **Personality, Identity, and Character** Darcia Narváez, Daniel K. Lapsley, 2009-06-29 This edited volume features cutting edge work in moral psychology by pre eminent scholars in moral self identity moral character and moral personality **Centralizing Fieldwork** Jeremy MacClancy, Agustín Fuentes, 2010-12-01 Fieldwork is a central method of research throughout anthropology a much valued much vaunted mode of generating information But its nature and process have been seriously understudied in biological anthropology and primatology This book is the first ever comparative investigation across primatology biological anthropology and social anthropology to look critically at this key research practice It is also an innovative way to further the comparative project within a broadly conceived anthropology because it does not focus on common theory but on a common method The questions asked by contributors are what in the pursuit of fieldwork is common to all three disciplines what is unique to each how much is contingent how much necessary Can we generate well grounded cross disciplinary generalizations about this mutual research method and are there any telling differences Co edited by a social anthropologist and a primatologist the book includes a list of distinguished and well established contributors from primatology and biological anthropology
