Autism Frontiers Clinical Issues And Innovations:

Autism Frontiers Bruce K. Shapiro, Pasquale J. Accardo, 2008 Newest medical and clinical research on autism including big issues and best practices by two top names in autism research Medical and Educational Perspectives on Nonverbal Learning Disability in Children and Young Adults Rissman, Barbara, 2015-09-04 This book is a comprehensive reference

source for emerging research in the identification diagnosis and intervention of nonverbal learning disabilities featuring in depth coverage on a variety of topics relating to intact nonverbal skills Nonverbal Learning Disability indicators disability manifestation and the dilemmas faced by caregivers and professionals **Treating NVLD in Children** Jessica

Broitman, John M. Davis, 2013-03-14 Children with nonverbal learning disabilities NVLD have needs that can take many forms and may over time require consultation and collaboration with professionals from several fields Given that multiple specialists may be involved in working with children with NVLD as well as the array of treatment variables even seasoned practitioners may find themselves in confusing situations Treating NVLD in Children takes a developmental view of how the problems and needs of young people with nonverbal learning disabilities evolve and offers a concise guide for professionals who are likely to contribute to treatment Expert practitioners across specialties in psychology education and rehabilitative therapy explain their roles in treatment the decisions they are called on to make and their interactions with other professionals Collaborative interventions and teamwork are emphasized as are transitions to higher learning employment and the adult world Among the book's key features are A new four subtype model of NVLD with supporting research A brief guide to assessment transmitting results and treatment planning Chapters detailing the work of psychologists therapists coaches and others in helping children with NVLD Material specific to improving reading writing and mathematics Overview of issues in emotional competency and independent living An instructive personal account of growing up with NVLD Treating NVLD in Children Professional Collaborations for Positive Outcomes is a key resource for a wide range of professionals working with children including school and clinical child psychologists educational psychologists and therapists pediatricians social workers and school counselors speech and language therapists child and adolescent psychiatrists and marriage and family therapists **The Oxford Handbook of Social Neuroscience** Jean Decety, John T. Cacioppo, 2015-04-15 The

complexities of the brain and nervous system make neuroscience an inherently interdisciplinary pursuit one that comprises disparate basic clinical and applied disciplines Behavioral neuroscientists approach the brain and nervous system as instruments of sensation and response cognitive neuroscientists view the same systems as a solitary computer with a focus on representations and processes The Oxford Handbook of Social Neuroscience marks the emergence of a third broad perspective in this field Social neuroscience emphasizes the functions that emerge through the coaction and interaction of conspecifics the neural mechanisms that underlie these functions and the commonality and differences across social species and superorganismal structures With an emphasis on the neural hormonal cellular and genetic mechanisms underlying social

behavior social neuroscience places emphasis on the associations and influences between social and biological levels of organization This complex interdisciplinary perspective demands theoretical methodological statistical and inferential rigor to effectively integrate basic clinical and applied perspectives on the nervous system and brain Reflecting the diverse perspectives that make up this field The Oxford Handbook of Social Neuroscience brings together perspectives from across the sciences in one authoritative volume
