becomes increasingly critical to resolving global issues it should be regarded as an integral element of the foreign policy process Second as liberal international relations theory argues the increasing role of NGOs must be taken seriously alongside states as vital agents of policy reform Third as transatlantic relations remain center to maintaining the global order they must be reconsidered Paar Jakli assesses the role of digital networks as facilitators of regional cooperation Utilizing various techniques of social network analysis her research indicates an active and structurally discernible network in cyberspace among transatlantic organizations and demonstrates the role of virtual networks as facilitators of cooperative arrangements in transatlantic relations Pa r J kli s original research uses social network analysis to investigate transatlantic cooperation a new approach that will be noteworthy to network and transatlantic scholars as well as policymakers

Exercising Human Rights Robin Redhead,2014-09-25 Exercising Human Rights investigates why human rights are not universally empowering and why this damages people attempting to exercise rights It takes a new approach in looking at humans as the subject of human rights rather than the object and exposes the gendered and ethnocentric aspects of violence and human subjectivity in the context of human rights Using an innovative visual methodology Redhead shines a new critical light on human rights campaigns in practice She examines two cases in depth First she shows how Amnesty International depicts women negatively in their 2004 Stop Violence against Women Campaign revealing the political implications of how images deny women their agency because violence is gendered She also analyses the Oka conflict between indigenous people and the Canadian state She explains how the Canadian state defined the Mohawk people in such a way as to deny their human subjectivity By looking at how the Mohawk used visual media to communicate their plight beyond state boundaries she delves into the disjuncture between state sovereignty and human rights This book is useful for anyone with an interest in human rights campaigns and in the study of political images
