Malamud, 2016-04-30 This book offers a new paradigm for reading and appreciating animals in literature and addresses how human culture views animals in poetry Part one sets up a theoretical overview and posits some aesthetic and ethical ideals for transposing animals into art while part two presents a more focused practical application of these ideals in one strain of animal poetry as seen in the works of Marianne Moore Jos Emilio Pacheco Gary Snyder Pattiann Rogers and others The poetry analyzed in the book is respectfully and non invasively insightful into animals it is tinged with a distancing and a kind of spiritual awe regarding their existence
