DEVELOPMENT OF THE CONSTITUTION

Essential Question: How have theory, debate, and compromises influenced the US' system of government that balances governmental power and individual rights?

Foundational Documents

-Declaration of Independence: Provides foundation for popular sovereignty; establishes natural rights and social contract; establishes limited government and republicanism

-Articles of Confederation: First constitution; gave all the power to the states and established a very weak central government

-US Constitution (main concepts):

- Article 1 Sections 1-3: Congress=bicameral legislature; people in the House appointed according to state population, people in the Senate represented by 2 senators per state; House chosen by people in their states, Senate chosen by state legislatures
- Article 1 Section 8: powers of congress (Ex to lay & collect taxes, borrow money, regulate commerce, coin money, declare war, raise armies and navy, make laws that are "necessary and proper")
- Article 1 Section 9: Lists the restrictions and rules that must be followed regarding certain powers of congress (ex no preference given, no money taken from treasury)
- Article 1 Section 10: limitations on state governments (Ex can't make a treaty, coin money, lay imposts on im/exports)
- Article 2: Executive power vested in the President, who will also be Commander in Chief of the army and navy

- Article 3: Judicial power vested in Supreme Court
- Article 6: Supremacy Clause

-Federalist 10 (Madison):

- Factions are problematic to the government b/c they create division and can disrupt the government when they are in opposition
- Factions can not be destroyed because that would destroy liberty
- The best way to control factions is to control their effects, and this can be done through a republican government
- As the nation grows, the number of parties and interests does as well—> power of factions will be diluted—> factions forced to compromise their interests in order to pass legislation that considers the common good of society

-Brutus 1 (Antifederalist):

- Asks which is better: a confederacy of state governments or a strong central government?
Answer=confederacy
- Concerned that b/c a central authority can pass any law imaginable (necessary and proper clause) and crush any state laws through their own (supremacy clause), state governments would become inferior
- Ex: if the fed govt collects taxes, how will the states collect taxes without the people getting upset?
- Quotes montesquieu saying that a republican government can not operate over a large territory and accurately represent the people

-Federalist 51 (Madison):

United States Exam Free Response Response 1 score $\times$ 1 66 raw score Response 2 score $\times$ 1 66 raw score Response 3 score $\times$ 1 66 raw score Response 4 score $\times$ 1 66 raw score Comparative Exam Response 1 score $\times$ 1 66 raw score Response 2 score $\times$ 1 66 raw score Response 3 score $\times$ 3 raw score Response 4 score $\times$ 3 raw score The Composite Score Once you have obtained your raw scores for both the Multiple Choice and the Free Response sections add the scores together to get your composite score United States Exam Multiple Choice raw score Free Response raw score composite score round to nearest whole number Score Essay 1 Score Essay 2 Score Essay 3 Score Essay 4 raw score Comparative Exam Multiple Choice raw score Free Response raw score composite score round to nearest whole number Now compare your composite score with the scale below Composite Score AP Grade 88 120 5 74 87 4 54 73 3 35 53 2 0 34 1 AP grades are interpreted as follows 5 extremely well qualified 4 well qualified 3 qualified 2 possibly qualified and 1 no recommendation Scores that Earn College Credit and or Advanced Placement Most colleges grant students who earn a 3 or above college credit and or advanced placement You should check with your school guidance office about specific college requirements Studying for Your AP Examination It is never too early to start studying The earlier you begin the more time you will have to sharpen your skills Do not procrastinate Cramming is not an effective way to study since it does not allow you the time needed to learn the test material It is very important for you to choose the time and place for studying that works best for you Some students may set aside a certain number of hours every morning to study while others may choose to study at night before going to sleep Other students may study during the day while waiting on a line or even while eating lunch Only you can determine when and where your study time will be most effective But be consistent and use your time wisely Work out a study routine and stick to it When you take the practice exam s try to make your testing conditions as much like the actual test as possible Turn your television and radio off and sit down at a quiet table free from distraction Make sure to time yourself As you complete the practice test s score your test s and thoroughly review the explanations to the questions you answered incorrectly but do not review too much during any one sitting Concentrate on one problem area at a time by reviewing the question and explanation and by studying

our review s until you are confident that you completely understand the material Since you will be allowed to write in your test booklet during the actual exam you may want to write in the margins and spaces of this book when practicing However do not make miscellaneous notes on your answer sheet Mark your answers clearly and make sure the answer you have chosen corresponds to the question you are answering Keep track of your scores By doing so you will be able to gauge your progress and discover general weaknesses in particular sections You should carefully study the reviews that cover the topics causing you difficulty as this will build your skills in those areas To get the most out of your studying time we recommend that you follow the Study Schedule which corresponds to the exam you are taking It details how you can best budget your time If you are taking both exams do not try to study for each at the same time Try alternating days by studying for the United States exam one day and the Comparative exam the next Test Taking Tips Although you may be unfamiliar with tests such as the Advanced Placement exams there are many ways to acquaint yourself with this type of examination and help alleviate your test taking anxieties Listed below are ways to help yourself become accustomed to the AP exam some of which may also be applied to other standardized tests Become comfortable with the format of the AP Examination in Government and Politics that you are taking When you are practicing to take the exam s simulate the conditions under which you will be taking the actual test s You should practice under the same time constraints as well Stay calm and pace yourself After simulating the test only a couple of times you will boost your chances of doing well and you will be able to sit down for the actual test much more confidently Know the directions and format for each section of the exam Familiarizing yourself with the directions and format of the different test sections will not only save you time but will also ensure that you are familiar enough with the AP exam to avoid nervousness and the mistakes caused by being nervous Work on the easier questions first If you find yourself working too long on one question make a mark next to it in your test booklet and continue After you have answered all of the questions that you can go back to the ones you have skipped Use the process of elimination when you are unsure of an answer If you can eliminate three of the answer choices you have given yourself a fifty fifty chance of getting the item correct since there will only be two choices left from which to make a guess If you cannot eliminate at least three of the answer choices you may choose not to guess as you will be penalized one quarter of a point for every incorrect answer Questions not answered will not be counted Be sure that you are marking your answer in the circle that corresponds to the number of the question in the test booklet Since the multiple choice section is graded by machine marking the wrong answer will throw off your score
