Malcolme-Lawes,2012-12-06 The invention of the microcomputer in the mid 1970s and its subsequent low cost proliferation has opened up a new world for the laboratory scientist Tedious data collection can now be automated relatively cheaply and with an enormous increase in reliability New techniques of measurement are accessible with the intelligent instrumentation made possible by these programmable devices and the ease of use of even standard measurement techniques may be improved by the data processing capabilities of the humblest micro The latest items of commercial laboratory instrumentation are invariably computer controlled although this is more likely to mean that a microprocessor is involved than that a versatile microcomputer is provided along with the instrument It is clear that all scientists of the future will need some knowledge of computers if only to aid them in mastering the button pushing associated with gleaming new instruments However to be able to exploit this newly accessible computing power to the full the practising laboratory scientist must gain sufficient understanding to utilise the communication channels between apparatus on the laboratory bench and program within the computer This book attempts to provide an introduction to those communication channels in a manner which is understandable for scientists who do not specialise in electronics or computers *Electronics* ,1980 June issues 1941 44 and Nov issue 1945 include a buyers guide section **An Introduction to Microcomputers** Adam Osborne and Associates,1976 *Microprocessors* O. A. R. Cornillie,2013-10-22 Microprocessors presents an overview of the state of the art in the field of microprocessors and illustrates with the aid of patents its utilization and application Organized into six parts the book begins with an introduction to the microprocessor microcomputer and software Parts I III focus on program control digital control and electrical motor control Subsequent parts show the medical applications measuring instruments and treatment of data in microprocessors
