Structured approach to paediatric emergencies

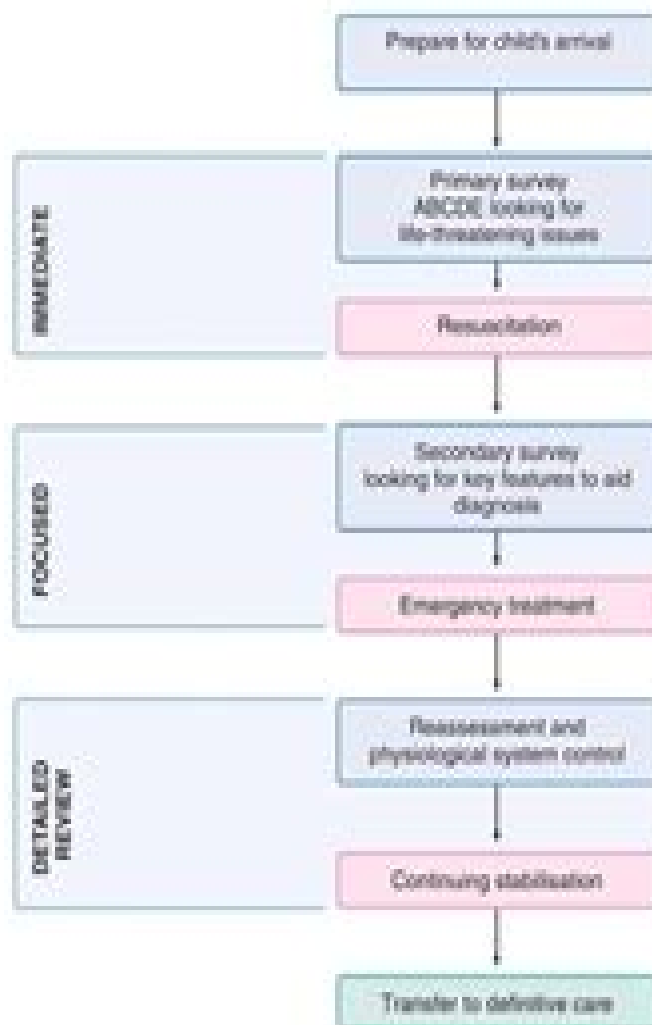

Figure 1.4 Structured approach to paediatric emergencies

A structured approach to paediatric emergencies will enable children to manage emergencies in a logical and effective fashion and assist in ensuring that all steps are not forgotten even in unfamiliar or infrequent emergency situations (Figure 1.4). The steps:

- Identification of life-threatening situations (based on observed signs), absent or ineffective breathing, or absent pulse or shock requiring immediate interventions which comprise resuscitation
- Following resuscitation, looking for key features which support likely working diagnosis
- Initiation of emergency treatment
- Reassessment and transfer to definitive care

Apls Manual 5th Edition:

Advanced Paediatric Life Support Advanced Life Support Group (ALSG), 2012-10-17 This international bestselling book on acute paediatric care is the coursebook for the Advanced Life Support Group's Advanced Paediatric Life Support (APLS). It uses their practical approach, a tried and tested method of treating children during the crucial first few hours of a life-threatening condition. This edition has been adapted specifically for use in Australia and New Zealand with the latest procedures, medications and clinical best practice to match the guidelines of the Australia and New Zealand Resuscitation Councils. Advanced Paediatric Life Support is used in emergency and paediatric departments by physicians, nurses and allied health professionals, and its clear layout and straightforward style make it a highly practical tool both for training and in the event of an emergency. The fifth edition includes major new features bringing it right up to date including: The latest International Liaison Committee on Resuscitation (ILCOR) 2010 Guidelines; A new and improved design including full colour photographs and diagrams; Fully adapted for use in Australia and New Zealand; New sections for Australasian specific practice including envenomation, burns, triage, neonatal resuscitation and formulary. With this book at hand, paediatric and emergency staff can be confident in having comprehensive and authoritative guidance on the first principles of recognising life-threatening conditions through to all the procedures necessary to save a child's life.

Pediatric Advanced Life Support Study Guide Aehlert, 2017-01-16 Fully revised to meet the 2015 CPR ECC Guidelines and to prepare students and professionals for PALS certification and recertification. Pediatric Advanced Life Support Study Guide, Fourth Edition, provides a clear and complete approach to managing pediatric emergencies. Designed for use by the spectrum of healthcare professionals, the Fourth Edition provides users with the critical information needed to approach real life pediatric emergencies. The Fourth Edition includes end of chapter quizzes with answers and objectives as well as a comprehensive posttest to gauge material comprehension. Case studies at the end of appropriate chapters for practice with real world material application. Clear procedural explanations written in descriptive yet accessible language. A refined Table of Contents including standalone chapters on cardiac dysrhythmias for focused learning and study. PALS Pearl boxes for text to everyday clinical application. In-text references for deeper research if desired.

Trauma Care Pre-Hospital Manual Ian Greaves, Keith Porter, 2018-12-07 This new book provides evidence-based guidelines for the immediate clinical management of major trauma. It has been written by clinicians with many years of trauma experience and endorsed as authoritative by Trauma Care UK. The UK now has highly effective trauma systems. Clinical developments include the introduction of damage control resuscitation, tranexamic acid, blood product resuscitation, novel hybrid resuscitation and an emphasis on the control of major external haemorrhage as part of a new ABCDE approach. Consequently, more individuals with major trauma are surviving than ever before. Optimal pre-hospital care is essential for improved survival rates and reduced morbidity.
