Bones Douglas Ubelaker, Henry Scammell, 2000-01-10 Fascinating educational and highly readable **Bones** takes readers into the dark world of forensic science

A Review of Bones JM. Suchey, 1995 **Bones A Forensic Detective s Casebook** is a vivid account of some of Dr Douglas Ubelaker s most intriguing forensic cases This volume contains 25 relatively short chapters many concentrating on a single forensic case involving the analysis of skeletal remains The cases are related in an entertaining manner which makes the volume readable to the general public as well as the forensic specialist There is a humorous vein throughout despite the tales of death which unfold Woven into these skeletal cases is a wealth of information for forensic specialists The reader is given information on the history of forensic anthropology and key figures in its development In particular Dr Larry Angel Ubelaker s predecessor at the Smithsonian is described in the midst of his forensic work Not only does Ubelaker describe pioneers in the field he brings numerous colleagues and their contributions to light throughout these chapters

Encyclopedia of Medical Anthropology Carol R. Ember, Melvin Ember, 2003-12-31 Medical practitioners and the ordinary citizen are becoming more aware that we need to understand cultural variation in medical belief and practice The more we know how health and disease are managed in different cultures the more we can recognize what is culture bound in our own medical belief and practice The Encyclopedia of Medical Anthropology is unique because it is the first reference work to describe the cultural practices relevant to health in the world s cultures and to provide an overview of important topics in medical anthropology No other single reference work comes close to matching the depth and breadth of information on the varying cultural background of health and illness around the world More than 100 experts anthropologists and other social scientists have contributed their firsthand experience of medical cultures from around the world

Trail of Bones Mary H. Manhein, 2005-09-01 A fellow of the American Academy of Forensic Sciences and an expert on the human skeleton Mary H Manhein assists law enforcement officials across the country in identifying bodies and solving criminal cases In Trail of Bones her much anticipated sequel to The Bone Lady Manhein reveals the everyday realities of forensic anthropology Going beyond the stereotypes portrayed on television this real life crime scene investigator unveils a gritty exhausting exacting alternately rewarding and frustrating world where teamwork supersedes individual heroics and some cases unfortunately remain unsolved A natural storyteller Manhein provides gripping accounts of dozens of cases from her twenty four year career Some of them are famous She describes her involvement in the hunt for two serial killers who simultaneously terrorized the Baton Rouge Louisiana region for years her efforts to recover the remains of the seven astronauts killed in the Columbia space shuttle crash in 2003 and her ultimately successful struggle to identify the beheaded toddler known for years as Precious Doe Less well known but equally compelling are cases involving the remains of a Korean War soldier buried for more than forty years and the mystery of Mardi Gras Man who was wearing a

string of plastic beads when his body was discovered Manhein describes how the increased popularity of tattoos has aided her work and how forensic science has labored to expose frauds including a fake big foot track she examined from Louisiana's Kisatchie National Forest She also shares ambitious plans to create a database of biological and DNA profiles of all of the state's missing and unidentified persons Possessing both compassion and tenacity Mary Manhein has an extraordinary gift for telling a life story through bones Trail of Bones takes readers on an entertaining and educating walk in the shoes of this remarkable scientist who has dedicated her life to providing justice for those no longer able to speak for themselves
