

Cesar Pelli, 1929-

Cesar Pelli was born in Tucuman, Argentina, where he lived and studied until moving to the United States for his master of architecture. Pelli became known for the crystalline look prominent in so many of his works, including the Pacific Design Center in Los Angeles and Petronas Twin Towers in Malaysia, which were the world's tallest buildings from 1988 to 2004. In 1991 Pelli was listed by the American Institute of Architects as one of the ten most influential living architects. He was then awarded their highest honor, the AIA Gold Medal, in 1995.
