aims to make it big in the hotel industry prompting her to leave her native Uzbekistan and set her sights on New York City all the while searching for the one whom she could introduce to her traditional Korean family As she tackles the dating scene first in New York's concrete jungle and then in Miami's palm tree lined beaches Alexandra encounters a series of disappointing dates and relationships with men from different cultural backgrounds What Not to Date recounts sixteen of these experiences humorously categorized when she attributes the worst qualities of these men to their sperm There's Rage

Flare Sperm a sugar mama seeking playboy with anger management issues and Ivy League Sperm well versed in world politics and languages but with an extremely small package But it s Athletic Sperm the one who got away only to return asking for a second chance who truly challenges Alexandra to confront what she really wants Always keeping it real with her unapologetic attitude and unfiltered comments Alexandra offers practical dating advice and invaluable lessons What Not to Date is a dating manual through the personal account of a woman who realizes that hospitality and dating scenes are not so different ultimately they reflect how we welcome people into our lives and how we accommodate their needs and ours

Driving Innovation from Within Kaihan Krippendorff, 2019-10-22 Conventional business wisdom tells us that entrepreneurs are society s main source of innovation Young founders leave college with a big idea get to work in a garage and build something that changes the world Typical corporate employees strangled by slow moving bureaucracy are blocked from making transformative discoveries In Driving Innovation from Within strategist and advisor Kaihan Krippendorff disproves one of today s biggest business myths to highlight lessons for innovators and leaders He reveals how many of the modern world s most impactful creations were invented by passionate employee innovators If it were left up to go it alone entrepreneurs we would not have mobile phones personal computers or e mail Distilling more than 150 interviews with internal innovators and leading experts along with insights from the latest research and today s most successful companies from Tencent and Amazon to Mastercard and Starbucks Krippendorff lays out a step by step playbook to unlock innovation from the inside He maps the barriers that frustrate efforts to disrupt from within and provides tools to remove them detailing how visionary leaders can create islands of freedom inside an organization to activate existing employees potential and beat startups at their own game Driving Innovation from Within is a practical and inspiring guide to leadership from all levels for those who want the fulfillment of changing the world without leaving their job in order to do it Security 2.0 Charles Hauss, 2015-09-28 Today international security issues are slowly being reconsidered through the lens of human security which refers to a combination of political economic social nutritional environmental physical health and personal safety issues When first mentioned in 1994 the concept of human security represented a significant first step in understanding that security dilemmas could no longer be seen as purely geopolitical phenomena that revolve around the nation state This book explains the progress made toward human security since then and the steps that remain to be taken to achieve it fully It begins by addressing how the nation state is both the source and the solution of security problems in the world before demonstrating how the meaning of security itself is being reconsidered and traditional approaches are being challenged Building on the concept of human security the book looks at how we are slowly moving toward large scale political and social change It argues that it is time for a security 2 0 approach different from the traditional models of national security Thus Security 2 0 addresses new challenges and their political responses pointing toward alternatives to what is referred to as permanent war It highlights such themes as cooperation the multi dimensionality of security issues and the continuing

pressures towards democratization global markets and multilevel governance and how these contribute today to make a safer world Further it shows how environmental threats global corporations identity issues and international regimes such as the EU are also fostering a fundamental rethinking of the concept of security Including a variety of perspectives and written in a jargon free accessible manner the work will provide students with new insights on conflict processes and international security
