Applied Linguistics And Primary School Teaching:

Applied Linguistics and Primary School Teaching Sue Ellis, Elspeth McCartney, 2011-04-07 Modern primary teachers must adapt literacy programmes and ensure efficient learning for all. They must also support children with language and literacy difficulties, children learning English as an additional language and possibly teach a modern foreign language. To do this effectively they need to understand the applied linguistics research that underpins so many different areas of the language and literacy curriculum. This book illustrates the impact of applied linguistics on curriculum frameworks and pedagogy. It captures the range of applied linguistics knowledge that teachers need and illustrates how this is framed and is used by policy makers, researchers, teacher educators and the other professions who work with teachers in schools. It considers how to effect professional development that works. It is essential reading for primary teachers but also for speech and language therapists, educational psychologists, learning support teachers and all those doing language or literacy research in the primary classroom.

Learning Foreign Languages in Primary School María del Pilar García Mayo, 2017-06-16 This book presents research on the learning of foreign languages by children aged 6-12 years old in primary school settings. The collection provides a significant and important contribution to this often overlooked domain and aims to provide research-based evidence that might help to inform and develop pedagogical practice. Topics covered in the chapters include the influence of learner characteristics on word retrieval, explicit second language learning and language awareness, meaning construction, narrative oral development, conversational interaction and how it relates to individual variables, first language use, feedback on written production, intercultural awareness raising and feedback on diagnostic assessment. It will be of interest to undergraduate and graduate students, researchers, teachers and stakeholders who are interested in research on how children learn a second language at primary school.

Applied Linguistics and Primary School Teaching Patricia Driscoll, 2015

Teaching and Learning English in the Primary School Gila A. Schauer, 2019-10-11 This book is the first comprehensive investigation of interlanguage pragmatic issues in a primary school context that is based on both primary school teachers' statements on their own teaching realities, views and preferences and a thorough investigation of materials used by teachers and recommended by teacher educators in the state the primary schools are located in. It offers a contrastive analysis of primary school learners acquiring English in a typical English as a foreign language school context and their age peers in the same state that are exposed to English in a school immersion context. This book will be of interest to scholars, researchers, educators in higher education that focus on English language teaching, second language acquisition and applied linguistics. It is also intended for students who are planning to become primary school teachers of English as a foreign language.
