The End of Fashion Adam Geczy, Vicki Karaminas, 2018-11-01 Attitudes to fashion have changed radically in the twenty first century Dress is increasingly approached as a means of self expression rather than as a signifier of status or profession and designers are increasingly treated as artists as fashion moves towards art and enters the gallery museum and retail space This book is the first to fully explore the causes and implications of this shift examining the impact of technological innovation globalization and the growth of the internet The End of Fashion focuses on the ways in which our understanding of fashion and the fashion system have transformed as mass mediation and digitization continue to broaden the way that contemporary fashion is perceived and consumed Exploring everything from the rise of online shopping to the emergence of bloggers as power elites who have revolutionized the terrain of traditional fashion reportage this volume anatomizes a world in which runway shows now compete with live streaming digital fashion films Instagram and Pinterest Bringing together original cutting edge contributions from leading international scholars this book is essential reading for students and scholars of fashion and cultural studies as well as anyone interested in exploring the dramatic shifts that have shaken the fashion world this century and what they might say about larger changes within an increasingly global and digital society

Sustainability in Art, Fashion and Wine Annamma Joy, 2024-03-18 The art fashion and wine industries are currently at various stages in their efforts to embrace and transition towards sustainability While sustainability commitments are a necessary condition for progress they are not sufficient Instead there is a need for sweeping transformative change that includes giving serious consideration to indigenous worldviews without recolonizing them Sustainability in Art Fashion and Wine includes findings from recent research and contributes to a new understanding of familiar concepts such as sustainability de colonization and corporate responsibility in the art fashion and wine industries by adopting critical lenses and incorporating them with innovative perspectives on circular business models and digitalization It endeavors to present remedies for effectively combating climate change and promoting social good While discussing specific issues such as sub contracted labor safe working conditions living wages environmental degradation mismanaged waste and more the book argues that recognizing the significant role western colonization has played and continues to play in the developing world in our current conception of capitalism is itself unsustainable To understand the true meaning of sustainability to fully recognize the looming deadlines we face in combating the climate crisis and instituting sustainability as a new normal the acceptance of a new conception of capitalism one antithetical to colonization and exploitation is required Contributors to this book address these issues by applying a critical studies approach to their respective chapters allowing

the book to set out what real sustainability could and should look like in the art fashion and wine industries **Fashion and Art** Adam Geczy,Vicki Karaminas,2013-08-15 For at least two centuries fashion and art have maintained a competitive love hate relationship Both fashion and art construct imaginary worlds and use a language of style to invigorate beliefs perceptions and ideas Until now the crossovers of fashion and art have received only scattered treatment and suffered from a dearth of theorization As an attempt to theorize the area this collection of new and updated essays is the most well rounded and authoritative to date Some of the world s foremost scholars in the field are assembled here to explore the art fashion nexus in numerous ways from aesthetics and performance to masquerade and media Original and inspiring this book will not only secure art fashion as a discrete area of study but also suggest new critical pathways for exploring their continuing cross pollination Fashion and Art is essential reading for students and scholars of fashion art history and theory cultural studies and related fields Cross-Cultural Design.
