Emerging Global Markets Mihajlo (Michael) Jakovljevic,Kyriakos Souliotis,Wim Groot,2016-04-14 During the recent few
decades global economic growth has been driven largely by developing world economies The ones with the most intensive
pace of development were marked as emerging markets led by so called BRICS and N 11 countries Such changes inevitably
reflected the global health arena A number of issues previously limited to established high income economies became
popularly discussed topics on the agendas of public health policy makers across these regions Major challenges remain
population aging rising incidence of prosperity diseases lack of universal insurance coverage and particularly provision of
just and equitable access to medical care among the poor both in urban and rural communities A significant part of the
difficulties faced by these societies are attributed to inefficient resource allocation strategies in health care and
unsatisfactory funding strategies This Research Topic was created in order to address the core challenges of medical care
financing and its affordability across the emerging global markets Contributions of both undergoing or finished original
research as well as review style papers are welcomed All submitted manuscripts should deal with issues relevant to health
care economics and policy in recognized global emerging markets Outside the aforementioned key markets BRICS Brazil
Russia India China South Africa Next 11 Bangladesh Egypt Indonesia Iran South Korea Mexico Nigeria Pakistan the
Philippines Turkey and Vietnam submissions referring to any of the dynamically developing Asian Latin America Eastern
Europe or MENA countries are encouraged In addition to a variety of health economic evaluations and health policy analysis
methodological and resource use studies are within the Topic scope Health policy considerations should be primarily focused
on financing mechanisms and affordability of health care although other surrounding issues such as health insurance
reimbursement and cost containment strategies will be considered *Catalogue* Montgomery Ward,1965 Cars & Parts
