## **Architecture And Critical Imagination:**

*Architecture and Critical Imagination* Wayne Attoe, 1978      **Architecture Beyond Criticism** Wolfgang F. E. Preiser, Aaron T. Davis, Ashraf M. Salama, Andrea Hardy, 2014-11-27 For the first time this book demonstrates that the two paradigms of architectural criticism and performance evaluation can not only co exist but complement each other in the assessment of built works As architecture takes more principled stances worldwide from environmental sustainability to social cultural and economic activism this book examines the roles of perceived and measured quality in architecture By exploring in tandem both subjective traditional architectural criticism and environmental design and performance evaluation and its objective evaluation criteria the book argues that both methodologies and outcomes can achieve a comprehensive assessment of quality in architecture Curated by a global editorial team the book includes Contributions from international architects and critics based in the UK USA Brazil France Qatar Egypt New Zealand China Japan and Germany Global case studies which illustrate both perspectives addressed by the book and comparative analyses of the findings A six part organization which includes introductions and conclusions from the editors to help guide the reader and further illuminate the contributions By presenting a systematic approach to assessing building performance design professionals will learn how to improve building design and performance with major stakeholders in mind especially end users occupants

**Architecture, Power and National Identity** Lawrence Vale, 2014-05-01 The first edition of *Architecture Power and National Identity* published in 1992 has become a classic winning the prestigious Spiro Kostof award for the best book in architecture and urbanism Lawrence Vale fully has fully updated the book which focuses on the relationship between the design of national capitals across the world and the formation of national identity in modernity Tied to this it explains the role that architecture and planning play in the forceful assertion of state power The book is truly international in scope looking at capital cities in the United States India Brazil Sri Lanka Kuwait Bangladesh and Papua New Guinea      **Critical Reflections**

**on Cities in Southeast Asia** Tim Bunnell, Lisa Drummond, Ho, 2021-11-15 *Critical Reflections* draws together the multi disciplinary research of scholars working in on cities across Southeast Asia The fourteen essays collected in the volume are organised into three thematic sections re conceptualisation competition and intervention Collectively these reflections contribute to and interrogate the expanding urban and regional studies literature The volume constitutes a critical corrective to the existing literature which all too often seeks to diagnose contemporary urban trends everywhere from a small number of mostly Western paradigmatic cases Yet while acknowledging the increasing interconnectedness and shared global orientation of most cities in Southeast Asia the volume is wary of positing an equally generalising regional model Individually these essays attend to the diversity of contemporary urban experiences in Southeast Asia      Companion to Contemporary Architectural Thought Ben Farmer, Dr Hentie J Louw, Hentie Louw, Adrian Napper, 2003-09-02 Architecture has attracted increasing worldwide attention in recent years not only because of its cultural significance but also because of concern over

the performance and resource implications of buildings 101 in depth articles by international scholars and practitioners bring the subject into focus by examining issues from various viewpoints Please contact your representative for a leaflet detailing full contents and contributors It also includes sample pages and several illustrations from the book Confabulations : Storytelling in Architecture Paul Emmons, Marcia F. Feuerstein, Carolina Dayer, 2016-12-19 Confabulation is a drawing together through storytelling Fundamental to our perception memory and thought is the way we join fractured experiences to construct a narrative Confabulations Storytelling in Architecture weaves together poetic ideas objects and events and returns you to everyday experiences of life through juxtapositions with dreams fantasies and hypotheticals It follows the intellectual and creative framework of architectural cosmopoesis developed and practiced by the distinguished thinker architect and professor Dr Marco Frascari who thought deeply about the role of storytelling in architecture Bringing together a collection of 24 essays from a diverse and respected group of scholars this book presents the convergence of architecture and storytelling across a broad temporal geographic and cultural range Beginning with an introduction framing the topic the book is organized along a continuous thread structured around four key areas architecture of stories stories of architecture stories of theory and practice of stories Beautifully illustrated throughout and including a 64 page full colour section Confabulations is an insightful investigation into architectural narratives **Critical Architecture** Jane Rendell, Jonathan Hill, Mark Dorrian, Murray Fraser, 2007-09-12 Critical Architecture examines the relationship between critical practice in architecture and architectural criticism Placing architecture in an interdisciplinary context the book explores architectural criticism with reference to modes of criticism in other disciplines specifically art criticism and considers how critical practice in architecture operates through a number of different modes buildings drawings and texts With forty essays by an international cast of leading architectural academics this accessible single source text on the topical subject of architectural criticism is ideal for undergraduate as well as post graduate study *Design and Order* Nigel C. Lewis, 2020-07-06 Teaches the principles behind the successful planning and creation of inspired built forms and urban places This book offers an integrated understanding of both the principles and the perception of the design of built environments and public spaces It outlines the fundamental characteristics that are evident in the creation of built form and illustrates how they determine the experience of resultant places It also consolidates the key criteria that need to be taken into consideration in the development of these areas All of the above mentioned aims to provide designers with a solid understanding of the implications of their decisions on perception and behavior during the creation of new spaces *Design and Order* Perceptual experience of built form Principles in the Planning and Making of Place starts by examining the designing of natural environments and the affect that they have on humans It teaches readers how people experience and are shaped by a space via their eyes brain and overall perception It then instructs on proper grammar of form and syntax so that designers can understand how to pursue design processes systematically The book then takes readers through this process of designing

informing them on the principles of form function configuration communication organization color and contrasts building structures good practice and more Seeks to improve the methodological approach to the planning and design of buildings Broadly address all of the functions that impact the realization of new built and urban form Outlines the fundamental characteristics that are evident in the design of built forms and illustrates how these characteristics determine the experience of the resultant places Comprehensively covers the ideas principles and the perception of design Teaches designers to make informed decisions about applying or discarding principles when creating spaces Design and Order is a unique book that will appeal to students and professionals in architecture urban design and planning as well as designers and developers
