The Forgotten Christians of Hangzhou David E. Mungello, 1994-01-01 Based on manuscripts from the once inaccessible former Jesuit library of Zikawei in Shanghai this book breaks new ground in focusing on the generation that followed Matteo Ricci and other luminaries of the early China mission Unusual in its coverage of both Jesuits and their Chinese literati converts *The Forgotten Christians of Hangzhou* traces the development of the Christian presence in seventeenth century Hangzhou through the work of Jesuit fathers Martino Martini and Prospero Intorcetta and Confucian scholar Zhang Xingyao whose struggle to demonstrate the compatibility of Neo Confucianism with the Lord of Heaven Teaching from the Far West forms the focus of D E Mungello s penetrating study Zhang and his fellow literati converts were in almost all respects highly orthodox Confucians who nevertheless regarded Christianity as complementary to and in some respects transcending Confucianism Their search for an intellectual blending of the two religions shows that contrary to important recent studies Christianity was inculturated into seventeenth century China far more than has been realized Prior to their dissolution at the hands of a hostile imperial government a century later the Hangzhou Christians had built one of the most beautiful churches in East Asia a seminary for training young Chinese priests a library and printing center and a Jesuit cemetery The church and cemetery have since been reopened and the works of Hangzhou Christians are preserved in libraries in Shanghai Beijing and Paris These architectural and literary monuments help reconstruct the features of one of China s most colorful and historical cities and the experiences of some of her most remarkable inhabitants *The Forgotten Christians of Hangzhou* not only tells us their story but adds a new dimension to our knowledge of the assimilation of Christianity by Chinese culture a process that is still under way today

Imperial Stewards K. Ian Shin, 2025-07-22 From the Gilded Age to World War II elite collectors and museums in the United States transformed from owning a smattering of Chinese porcelain as curios to possessing some of the world s largest and most sophisticated collections of Chinese art Imperial Stewards argues that beyond aesthetic taste and economics geopolitics were critical to this transformation Collecting and studying Chinese art and antiquities honed Americans belief that they should dominate Asia and the Pacific Ocean through the ideology of imperial stewardship a view that encompassed both genuine curiosity and care for Chinese art and the enduring structures of domination and othering that underpinned the burgeoning transpacific art market Tracing both transatlantic

and transpacific networks across the Pacific and the Atlantic K Ian Shin uncovers a diverse cast of historical actors that both contributed to US imperial stewardship and also challenged it including Protestant missionaries German diplomats Chinese Hawaiian merchants and Chinese overseas students among others By examining the development of Chinese art collecting and scholarship in the United States around the turn of the twentieth century Imperial Stewards reveals both the cultural impetus behind Americans long standing aspirations for a Pacific Century and a way to understand and critique the duality of US imperial power around the globe

On the Trail of the Yellow Tiger Kenneth Swope, 2018-07-01 The Manchu Qing victory over the Chinese Ming Dynasty in the mid seventeenth century was one of the most surprising and traumatic developments in China s long history In the last year of the Ming the southwest region of China became the base of operations for the notorious leader Zhang Xianzhong 1605-47 a peasant rebel known as the Yellow Tiger Zhang s systematic reign of terror allegedly resulted in the deaths of at least one sixth of the population of the entire Sichuan province in just two years The rich surviving source record however indicates that much of the destruction took place well after Zhang s death in 1647 and can be attributed to independent warlords marauding bandits the various Ming and Qing armies vying for control of the empire and natural disasters On the Trail of the Yellow Tiger is the first Western study to examine in detail the aftermath of the Qing conquest by focusing on the social and demographic effects of the Ming Qing transition By integrating the modern techniques of trauma and memory studies into the military and social history of the transition Kenneth M Swope adds a crucial piece to the broader puzzle of dynastic collapse and reconstruction He also considers the Ming Qing transition in light of contemporary conflicts around the globe offering a comparative military history that engages with the universal connections between war and society
