American Horticultural Manual Classic Reprint:

American Horticultural Manual, Vol. 1 (Classic Reprint) Joseph L. Budd, 2018-02-07 Excerpt from American Horticultural Manual Vol 1 Quite as important is the Modern change in the requirements of the student or beginner in horticulture In the days when gardening was a mere art the Operator was told what to do and how to do it At this time the student is required to know not only how to perform a given work but to give the reasons for doing it in a certain way in order to reach given results About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

American Horticultural Manual, Vol. 2 (Classic Reprint) J. L. Budd, 2015-08-05 Excerpt from American Horticultural Manual Vol 2 The word Pomology is practically synonymous with fruit growing in its broad sense as given in Part I But Systematic Pomology as now used is confined to the classification and description of fruits and by usage it also includes the nuts In the past hundreds of varieties have been described which are not at this time known to our nursery lists or to those recommended by the widely distributed State and District Horticultural Societies Charles Downing said in 1869 If it were only necessary for me to present for the acceptance of my readers a choice garland of fruits comprising the few sorts that I esteem of the most priceless value the space and time occupied would be very brief In our day the District State and National Horticultural Societies together with growers and propagators have been sifting the old lists and now present for about every section and horticultural district the few sorts of most priceless value Hence the plan of this work is to include only the varieties recommended at this time by societies and growers including those of special value locally so far as known and those on the trial lists of the horticulturists of the Northwest and of the northern limits of successful fruit growing For the benefit of amateurs and beginners the relative hardiness of varieties will be given with their adaptation so far as known to given soils exposures and altitudes The names of fruits will be made to conform mainly to the code of the American Horticultural Society but the popular name and the synonyms will follow About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
