Proceedings of the International Conference on

Nano-electronics, Circuits & Communication Systems Vijay Nath, 2017-03-24 This volume comprises select papers from the International Conference on Nano electronics Circuits Communication Systems NCCS The conference focused on the frontier issues and their applications in business academia industry and other allied areas This international conference aimed to bring together scientists researchers engineers from academia and industry The book covers technological developments and current trends in key areas such as VLSI design IC manufacturing and applications such as communications ICT and hybrid electronics The contents of this volume will prove useful to researchers professionals and students alike

Nanomaterials and Nano-Biochar in Reducing Soil Stress Vishnu D. Rajput, Tatiana M. Minkina, 2024-12-06 Soil deterioration loss of productivity and increases in toxic elements in soil induced by rapid industrial development and intensive cultivation are posing a serious threat to global food security and environmental sustainability Nanotechnology has

the capacity to expand current cultivation practices in a sustainable way This new book details the potential this novel technology has to reduce soil pollution enhance crop production promote sustainable agriculture and ultimately ensure food security The book emphasizes how nano biochar technology can be implemented to enhance microbial activities and other soil organism functionalities by applying or combining agricultural practices and soil health improving amendments Exploring the most promising carbon rich material that is biochar and more effectively nano biochar this book covers the characteristics production and benefits of nano enhanced biochar The role of nanobiochar in metal stress reduction for soil health improvement as a soil conditioner in reducing soil stress using integrated approaches for improving nutrient use efficiency in salinity stress management for sustainable crop production and for arsenic remediation are all considered in detail Starting with an introduction to nano biochar the book goes on to detail its benefits its conditioner like effect on soil its role in improving soil health and reducing soil stress how it improves nutrient use capacity in soil and its ability to alleviate salinity heavy metal stress and arsenic remediation in crops With its comprehensive coverage of the important topic of biochar and nano biochar the book will prove useful to companies students professors researchers and scientists who are interested in the topic of soil stress management and sustainable agriculture as well as policymakers who can recommend novel agriculture amendments

Electrospinning of Nanofibers in Textiles A. K. Haghi, 2011-12-15 Electrospinning of nanofibers has emerged as a specialized processing technique for the formation of sub micron fibers with high specific surface areas Electrospinning of Nanofibers in Textiles presents important new research in the dynamic and emerging field of electrospinning and covers all aspects of the technology as used to produce nanofibers

True Enough Farhad Manjoo, 2011-02-17 Why has punditry lately overtaken news Why do lies seem to linger so long in the cultural subconscious even after they've been thoroughly discredited And why when more people than ever before are documenting the truth with laptops and digital cameras does fact free spin and propaganda seem to work so well True Enough explores leading controversies of national politics foreign affairs science and business explaining how Americans have begun to organize themselves into echo chambers that harbor diametrically different facts not merely opinions from those of the larger culture

New Frontiers in Nanochemistry: Concepts, Theories, and Trends Mihai Putz, 2020-05-06 The final volume of this new innovative and informative three volume set explains and explores the essential basic and advanced concepts from various areas within the nanosciences This volume primarily focuses on increasing awareness of sustainable nanochemistry meaning the social and economic impact of nanochemistry in order to mitigate ecological resource depletion and to promote the exploration of nature as a resource for future benefits This volume adopts a pharmacological lens examining the multitude of ways in which nano research can contribute to the development of pharmaceutical drugs and paying particular attention to toxicology and renewable energy within nanochemistry Under the vast expertise of the editor the volume contains 34 entries contributed by renowned international scientists and scholars The content in this volume covers topics such as anti HIV

agents ecotoxicology solar cells and photovoltaic phenomena spectral SAR and more alphabetically organized and accompanied by equations figures and brief letters in order to emphasize the potential applications of the concepts discussed

Engineered Carbon Nanotubes and Nanofibrous Material A. K. Haghi, Praveen K.M., Sabu Thomas, 2018-10-16 Carbon nanotubes with their extraordinary engineering properties have garnered much attention in the past 10 years Because of the broad range of potential applications the scientific community is more motivated than ever to move beyond basic properties and explore the real issues associated with carbon nanotube based applications Presenting up to date literature that presents the current state of the science this book *Engineered Carbon Nanotubes and Nanofibrous Material Integrating Theory and Technique* fully explores the development phase of carbon nanotube based applications It looks at carbon nanotubes and their applications in diverse areas of science and engineering and considers environmental engineering applications as well This volume is a valuable resource for engineers scientists researchers and professionals in a wide range of disciplines whose focus remains on the power and promise of carbon nanotubes

New Generation Formulations of Agrochemicals Tatiana G. Volova, Ekaterina I. Shishatskaya, Natalia O. Zhila, Svetlana V. Prudnikova, Anatoly N. Boyandin, 2019-07-01 This important volume provides new research on the design and application of ecologically safe formulations for protecting cultivated crops against pathogen causing diseases and weeds that also provide nitrogen fertilizers at the same time The authors make a significant contribution to the development and agricultural use of environmentally safe and biodegradable new generation pesticides with targeted and controlled release of active ingredients They discuss the problems associated with the use and accumulation of xenobiotics in the biosphere and present highlights of modern trends in the design of new generation formulations The authors present their original research results on the properties of herbicides fungicides and nitrogen fertilizers deposited in a degradable polymer base and the effectiveness of the use of these formulations in laboratory ecosystems with higher plants infected with fusariosis and weeds The research provided here provides a new direction for the use of degradable polymers essential for the creation of ecologically safe agricultural technologies and reducing uncontrolled accumulation and spread of xenobiotics in the biosphere

Fruit Crops Anoop Kumar Srivastava, Chengxiao Hu, 2019-11-30 *Fruit Crops Diagnosis and Management of Nutrient Constraints* is the first and only resource to holistically relate fruits as a nutritional source for human health to the state of the art methodologies currently used to diagnose and manage nutritional constraints placed on those fruits This book explores a variety of advanced management techniques including open field hydroponic fertigation bio fertigation the use of nano fertilizers sensors based nutrient management climate smart integrated soil fertility management inoculation with microbial consortium and endophytes backed up by ecophysiology of fruit crops These intricate issues are effectively presented including real world applications and future insights Presents the latest research including issues with commercial application Details comprehensive insights into the diagnosis and management of nutrient constraints Includes contributions by world renowned researchers providing global
