Blitzkrieg Unleashed The German Invasion Of Poland 1939 Stackpole Military History Series:

The Allure of Battle Cathal Nolan, 2017-01-02 History has tended to measure war's winners and losers in terms of its major engagements battles in which the result was so clear cut that they could be considered decisive Cannae Konigsberg Austerlitz Midway Agincourt all resonate in the literature of war and in our imaginations as tide turning But these legendary battles may or may not have determined the final outcome of the wars in which they were fought Nor has the genius of the so called Great Captains from Alexander the Great to Frederick the Great and Napoleon play a major role Wars are decided in other ways Cathal J Nolan's The Allure of Battle systematically and engrossingly examines the great battles tracing what he calls short war thinking the hope that victory might be swift and wars brief As he proves persuasively however such has almost never been the case Even the major engagements have mainly contributed to victory or defeat by accelerating the erosion of the other side's defences Massive conflicts the so called people's wars beginning with Napoleon and continuing until 1945 have consisted of and been determined by prolonged stalemate and attrition industrial wars in which the determining factor has been not military but material Nolan's masterful book places battles squarely and mercilessly within the context of the wider conflict in which they took place In the process it help corrects a distorted view of battle's role in war replacing popular images of the battles of annihilation with somber appreciation of the commitments and human sacrifices made throughout centuries of war particularly among the Great Powers Accessible provocative exhaustive and illuminating The Allure of Battle will spark fresh debate about the history and conduct of warfare

Land of War William Nester, 2023-05-01 War in Europe began with the first human migrants Rival bands fought for thousands of years before the Greeks and Romans began writing about their military history first as legend for instance the hero Achilles battling the Trojans and then as fact War developed from sticks and stones to bronze iron and steel including armor and edged weapons Then came gunpowder guns and cannons which eventually replaced edged weapons Finally in the nineteenth and twentieth centuries technology exploded railroads steamships telegraphs machine guns automobiles airplanes and tanks enabled European states to muster equip arm transport and command more men than ever before with more firepower than ever before In the past seventy five years atomic weapons changed the military landscape of Europe as have the internet and cyber warfare In this colorful new telling of European warfare and indeed European history through the continent's all too numerous wars and conflicts William Nester describes millennia of armed conflict He covers the greatest hits of military history both ancient and current Thermopylae the Peloponnesian War the wars of the Roman Empire across the continent the Battle of Hastings the Crusades Agincourt Waterloo Napoleon and Wellington the Somme the Spanish Civil War Stalingrad and Normandy Churchill Hitler and Stalin Bosnia and up through Putin's attempts to redraw the map of Europe Nester highlights how warfare has been deeply entwined with European statesmanship and undergirds modern institutions such as NATO and the European Union Europe's sense of itself is bound up in its military history Land of War is an epic odyssey from

Europe's mythic origins through its latest violent conflicts

Hermann Goering: From Madrid to Warsaw and Beyond, 1939 Blaine Taylor, 2023-09-17 1939 was a glorious year for Hermann Goering. He spent it entertaining dignitaries visiting the Third Reich, attending galas, going on official visits, giving rousing speeches at factories and military parades, and indulging in his love of fine art, rich cuisine, and sumptuous clothes and jewels. Ever vain, pompous, and ambitious, in 1939 he attained the summit of his power and popularity when Hitler, speaking to a packed Reich Chancellery on 1 September, named him his successor. Goering's rise was inseparable from that of his Luftwaffe. As commander in chief, he basked in the glory of the Condor Legion's victory in Spain in April 1939 and the Luftwaffe's decisive role in the Blitzkrieg of Poland in September. From these encounters, the Luftwaffe emerged as the world's most feared and respected air force, but beyond the trappings of victory, there were deep-seated flaws. Fearing their exposure against a more powerful enemy, Goering did not want Germany to go to war with Great Britain and France. Hermann Goering: From Madrid to Warsaw and Beyond, 1939 is a photographic chronicle of a momentous year in the life of the Luftwaffe's commander in chief, showing him at his most happy and self-confident and equally at his most anxious about what the future might bring. *The Trials of Nina McCall* Scott W. Stern, 2018-05-15 The nearly forgotten story of the fight against the American Plan, a government program designed to regulate women's bodies and sexuality. A consistently surprising page-turner, a brilliant study of the way social anxieties have historically congealed in state control over women's bodies and behavior. New York Times Book Review Nina McCall was one of many women unfairly imprisoned by the United States government throughout the twentieth century. Tens of thousands of women and girls were locked up, usually without due process, simply because officials suspected these women were prostitutes carrying STIs or just promiscuous. This discriminatory program, dubbed the American Plan, lasted from the 1910s into the 1950s, implicating a number of luminaries including Eleanor Roosevelt, John D. Rockefeller Jr., Earl Warren, and even Eliot Ness while laying the foundation for the modern system of women's prisons. In some places, vestiges of the Plan lingered into the 1960s and 1970s, and the laws that undergirded it remain on the books to this day. Nina McCall's story provides crucial insight into the lives of countless other women incarcerated under the American Plan. Stern demonstrates the pain and shame felt by these women and details the multitude of mortifications they endured both during and after their internment. Yet thousands of incarcerated women rioted, fought back against their oppressors, or burned their detention facilities to the ground; they jumped out of windows or leapt from moving trains or scaled barbed wire fences in order to escape. And as Nina McCall did, they sued their captors. In an age of renewed activism surrounding harassment, health care, prisons, women's rights, and the power of the state, this virtually lost chapter of our history is vital reading.

Hitler's Heroes During Operation Barbarossa Jeremy Dixon, 2024-11-30 Profiles the 178 generals awarded the Knight's Cross during the early months of Hitler's invasion of the Soviet Union. This is a study of the officers who were promoted to the rank of general and who were also awarded the Knight's Cross during the early period of Hitler's assault upon the Soviet

Union This takes us from the great onslaught of Operation Barbarossa through to Hitler's decision to abandon his attempt to capture Moscow and adopt a temporary defensive stance due to the early onset of winter. Such was the scale of operations during these momentous first six months of the war on the Eastern Front there were endless opportunities for officers to display courage and leadership. This resulted in a total of 172 generals, twenty-five Generalmajors, fifty-five Generalleutnants, eighty-three full Generals, eight Generalobersts, and one Generalfeldmarschall being awarded the Knight's Cross in this period alone. One such recipient was General der Artillerie Erich Marcks, who personally directed the fire of his guns against enemy bunkers at very close range. On the day he was notified of his award of the Knight's Cross, he was seriously wounded and had to have his left leg amputated. Despite this, he returned to service in March 1942 and was later awarded the Knight's Cross with Oakleaves. General der Infanterie Ernst Schroth, the Commanding General of the XII Army Corps, was awarded the Knight's Cross for his part in the attack on the Brest Litvsk Fortress in June 1941. Considered a staunch supporter of Hitler, he was appointed to the Court of honor which investigated those members of the Wehrmacht who had participated in the 20 July 1944 Valkyrie plot to kill the Führer. Hermann Heinrich Behrend was just a Major when he was awarded the Knight's Cross on 15 July 1941. This was for his actions while commanding I Battalion of the 489th Infantry Regiment in its successful breakthrough of the enemy's heavily defended lines southeast and east of Tauragga in Lithuania on 22 June 1941. Behrend continued to display great courage and resourcefulness, which saw him rise to the rank of Generalmajor and the later awards of both the Knight's Cross with Oakleaves and the Knight's Cross with Oakleaves and Swords. With each of these 178 entries, there is a detailed description of how and where the Knight's Cross was won, and in the case of the higher awards such as the Oakleaves, Swords, and Diamonds, who presented the award, where and when. This study provides details of their rank and command at the time of the award, as well as also detailing their career during the war and after, with investigations into their fate and post-war life. The book is completed with a considerable number of photographs of many of these officers.

The Nazi Mind Laurence Rees, 2025-01-23 THE SUNDAY TIMES BESTSELLER A brilliant piece of work, learned, compelling, and frankly terrifying. James Holland: I will recommend to everyone. Alastair Campbell: You know when a book reaches parts that other books cannot reach, extraordinary. James O'Brien: This disturbing book is timely, relevant, and important. Sir Ian Kershaw: A groundbreaking narrative history of the motivations and mentalities behind the Nazis and their supporters from the bestselling author of *THE HOLOCAUST* and President Zelenskyy's most read book *HITLER AND STALIN*. How could the Nazis have committed the crimes they did? Why did commandants of concentration and death camps willingly often enthusiastically oversee mass murder? How could ordinary Germans have tolerated the removal of the Jews? In *THE NAZI MIND*, bestselling author Laurence Rees combines history and the latest research in psychology to help answer some of the most perplexing questions surrounding the Second World War and the Holocaust. Ultimately, he delves into the darkness to explain how and why these people were capable of committing the worst crime in the history of the world. Rees traces the

rise and eventual fall of the Nazis through the lens of twelve warnings from talk about them and us to the escalation of racism whilst also highlighting signs to look out for in present day leaders Rees uses previously unpublished testimony from former Nazis and those who grew up in the Nazi system and in depth psychological insights including cutting edge work on obedience authority and the brain THE NAZI MIND is a revelatory new way of understanding how so many people committed the most appalling crime of the 20th century **Winston Churchill and the Art of Leadership** William Nester,2020-09-30

Many indeed are the biographies of Winston Churchill one of the most influential figures of the twentieth century But what was that influence and how did he use it in the furtherance of his and his country s ambitions For the first time Professor William Nestor has delved into the life and actions of Churchill to examine just how skillfully he manipulated events to placed him in positions of power His thirst for power stirred political controversy wherever he intruded Those who had to deal directly with him either loved or hated him His enemies condemned him for being an egoist publicity hound double dealer and Machiavellian accusations that his friends and even he himself could not deny He could only serve Britain as a statesman and a reformer because he was a wily politician who won sixteen of twenty one elections that he contested between 1899 and 1955 The House of Commons was Churchill s political temple where he exalted in the speeches and harangues on the floor and the backroom horse trading and camaraderie Most of his life he was a Cassandra warning against the threats of Communism Nazism and nuclear Armageddon With his ability to think beyond mental boxes and connect far flung dots he clearly foretold events to which virtually everyone else was oblivious Yet he was certainly not always right and was at times spectacularly wrong This is the first book that explores how Churchill understood and asserted the art of power mostly through hundreds of his own insights expressed through his speeches and writings **The Gathering Storm** Geirr H

Haarr,2013-09-24 A top of the line examination of operations in north European waters during the first eight months of WWII by far the best work on that subject Stone Stone The term the phony war is often applied to the first months of the Second World War a term suggesting inaction or passivity That may have been the perception of the war on land but at sea it was very different This new book is a superb survey of the fierce naval struggles from 1939 up to the invasion of Norway in April 1940 The author begins the book with the sinking of the German fleet at Scapa Flow in 1919 and then covers the rebuilding of the Kriegsmarine and parallel developments in the Royal Navy and summarizes relevant advances in European navies The main part of the book then describes the actions at sea starting with the fall of Poland There is a complex intertwined narrative that follows The sinking of Courageous the German mining of the British East Coast the Northern Patrol the sinking of Rawalpindi small ship operations in the North Sea and German Bight the Altmark incident are all covered Further afield the author deals with the German surface raiders and looks at the early stages of the submarine war in the Atlantic As with his previous books Geirr Haarr has researched extensively in German British and other archives and the work is intended to paint a balanced and detailed picture of this significant period of the war when the opposing naval forces were adapting to a

form of naval warfare quite different to that experienced in WWI **The British National Bibliography** Arthur James Wells,2009 *The Secret She Kept* Carly Schabowski,2023-05-02 Poland 1939 As I stare into the German pilot's frightened eyes I realise I have no choice but to help him And in that moment I know that this young man and this decision will change my life forever When a German pilot crashes over my parents' farmland at first I am terrified Who is this man And should I help him or have him arrested But when I look into his eyes for the first time I feel in my heart that I must do everything I can to save this stranger's life As I begin to secretly nurse his injuries he tells me his name is Max And as we share whispered candlelit conversations he admits that he didn't crash his plane but parachuted over Poland to defect from the Nazis And as he slowly tells me his story I realise I am falling in love with this man with his bravery and his determination to do what is right no matter the cost But when the Nazis arrive the small world we have built together is shattered in an instant And when the Germans arrest me and my twin siblings dragging us to a camp in the dead of night I know that our only chance of survival our only hope is to be rescued As I sit in my cell I think of what Max told me He held my hand and promised me that if we were arrested he would go undercover as a German soldier and save us But will the guards believe his story And even if they do will he make it to us before it is too late Based on a true story this heartbreaking and emotional wartime novel follows one couple's love story and their courage in the face of unimaginable odds An incredibly gripping and moving story perfect for readers of *The Tattooist of Auschwitz* *The Nightingale* and *The Alice Network* Praise for *The Secret She Kept* Wow just wow A beautifully written page turning incredible and intriguing historical WW2 novel It will have you captivated Danger grief romance and so much more unputdownable Goodreads reviewer Amazing Wonderful This fabulous book broke my heart PageTurners Gripping and moving Mind blowing Heartbreaking and full of bravery courage and strength Rachel Bustin An exceptional read Inspirational and exciting Christian Novel Review Beautiful and captivating stamperlady50 Incredible from start to finish Goodreads reviewer A truly heartbreaking and heart warming story shortbookthyme I loved it Goodreads reviewer Gripping and beautiful Goodreads reviewer Absolutely heartbreaking Incredible Goodreads reviewer Blew my mind Incredible Heartbreaking emthebookworm
